Correction: "about 700 of those read receipt supporters left to be notified they are being 'evacuated'" is inaccurate. Outlook showed 700, but it was only counting those who were 'bold' ie. marked as unread; whereas there were others who still had to be notified of impending evacuation who were marked as read; but were not counted. The number of 'read receipts' to be notified of required to update to unconditional or conditional co-operator are; as of: 08 Aug 2015: approximately 1050.

Stan McChrystal: Re: [Are you interested in learning about our culture?](#) I imagine you are referring to your Masonic BDSM fuck honour toxic-sex type of culture.

If ever your question is directed to me personally and sincere; may I suggest you notify me directly in my inbox; buck stops here addressed to me for my attention.

For the record: My answer is Thanks but no thanks. I have spent more than ten years learning about your plausible deniable fucked up Masonic fuck honour BDSM culture and the more I learn about it; the more I am disgusted and repulsed by it. I can't imagine why anyone would voluntarily and consciously join your Masonic fuck honour BDSM culture; but there are many people who do things I think is dumbfuck or weird; which I would never do. So if it works for you; by all means go ahead. May I suggest you do however make a bit of effort to find a way to

communicate in a buck stops here honourable manner with people from such cultures; should you give a fuck about being clearly understood by them. Its good 'intercultural relations'. If or when I have something to say to someone; I say it 'buck stops here' to their face or in writing to their inbox for their explicit attention. If you don't like that; or prefer I do not address you directly in buck stops here language; I am quite happy to respect your wishes and refrain from ever contacting you again; except if or where I may have something to say about you; and if so to provide you with an honourable copy of such communication.

If I think someone is procreating or consuming above carrying capacity limits; I inform them to their face; in buck stops here language they can understand. If I think they need to be removed from the planetary genepool; I notify them of my opinions via legal proceedings that provide them with the opportunity to prove my Ecology of Peace evidence and argument incorrect. If I can find a court that gives a fuck about honour and honourable justice; that is. If not; at least I tried. Thank you for your plausible deniable 'applicant' support in such efforts to find a court; to resolve these EoP v WiP culture issues.

GMC 4643-13 applicants and observers  
CC: President Obama

As for Obama's 'fuck honour' Masonic verbal diarrhea: [Fox News](#): "What is a more relevant fear would be that in Year 13, 14, 15, they have advanced centrifuges that enrich uranium fairly rapidly, and at that point, the breakout times would have shrunk almost down to zero."

Lt. Col Ralph Peters: [Putin has Obama's number and Obama's number is zero](#). Essentially Col. Peters argues that Putin knows what he is doing and is not bluffing and Obama has not the foggiest clue what he is doing; or what to do. Whether Obama's statements were consciously related to Col Peters prior statements; to some other 'zero'; and if so to which one; or not at all; I don't know.

Lt. Gen Michael Flynn: [US policy of willful ignorance in Middle East](#).

Lt. Gen Flynn's [full Fox Interview](#) on Middle East policy necessity to 'accurately define the enemy'.

[Old interview of Israel Generals on Obama; Middle East dialogue with Iran and trusting Obama](#). Personally I don't think fake negotiations with anyone who is insincere is useful; as previously stated in legal correspondence to Brad and Radical Honesty community. Negotiations are useful with people who are sincere or possibly sincere about resolving any problem by addressing the root cause of the problem. With people who are insincere; with fuck all concern or interest in addressing the root cause of the problem; negotiations are a waste of time of your and their time; unless both of you have some dumbfuck fanclub citizens you wish to bullshit that you are attempting to resolve the problem; before you fry some of them in some military human sacrifice 'my penis is bigger than your penis shock and awe pissing contest'. [I ain't got no dumbfuck fanclub; about 700 of those read receipt supporters left to be notified they are being 'evacuated'.] The best option is to avoid them. If they refuse to honour a 'we can't resolve our problem but will avoid each other's space' agreement; then build a wall if you have to; give them a homeland to go to and build a wall around that; until they change their mind and are willing to sincerely negotiate to address the root causes of the problem. If they are a threat or potential threat, including procreation or consumption threat; resolve the matter

legally; or at least honourably try to do so; where you inform them in buck stops here information; how and why you are going to exterminate them.

Perhaps when Obama gives up his addiction to verbal diarrhea; and starts saying anything that he is willing to backup with action; I will amend my views about his verbal diarrhea. For the moment if or where I do pay attention to Obama or for that matter many other verbal diarrhea addicts; it is within the context of 'is it NSA/KGB psychotronically manipulated; and if so what could be the psychotronic handlers message via their verbal diarrhea drone'?

Psychologically my assessment of Obama's subconscious or conscious motive's are: He'd rather provoke the Masonic 'right wing' to assassinate him and turn him into some Masonic progressive nigger Wag the Dog martyr for the nigger and progressive slaves and his own posterity. Chances of him finding his nigger spine to give up his verbal diarrhea to support some conservative Africans, Muslims and Indians to engage in a 'ego and penis/vagina jihad' conversation are very slim; perhaps indirectly by his own admission 'zero' percent. Chances of his military, legal, corporate, media liberal and progressive supporters finding their spine to support Obama to find his spine to support some conservative Africans, Muslims and Indians to engage in a 'ego and penis/vagina jihad' conversation are very slim; again perhaps indirectly by his own admission 'zero' percent.

Either way if Obama if African, Muslim, Indian and European progressive elite do not give a fuck about their nigger, towelhead, coolie 'brothers' and 'sisters'; my suggestion is to invest energy and time and resources in getting other stuff done; finding other Africans, Muslims and Indians who do have spines and are willing to cooperate to do what needs to be done to build a foundation for such an 'ego and penis/vagina jihad' conversation amongst Africans and Muslims; and those factions of Europeans; Slavs, Asians; etc whom also could do with an amended as to their cultural practices 'ego and penis/vagina honesty' conversation.

Alternatively there are other options where the process whereby the referendum information is released individually to all citizens; for their consideration prior to them actually being required to vote on it; could also be the 'ego and/or penis/vagina jihad information dissemination agent'.

There are various options how an EoP international referendum could be implemented; but its best to explore such options with people who are sincere about implementing it; or sincerely opposed; who sincerely think it cannot be done; but have no attachment to their opinion about whether it can be done; and would welcome finding their premises to be incorrect.

Of possible EoP Interest:

Iran & Palestine: [Iran Military Chief celebrates 'diplomatic jihad' victory](#) | [Palestinian official warns Palestinian mothers of their human sacrifice 'image problem'](#) | [Nasrallah to Obama: Thanks](#) | [IDF Military Chief: US needs military alternatives that stop short of war.](#)

\*~~~~~\*\*~~~~~\*

Are there any military, legal, corporate, religious, academic, media and/or political elite – besides Timothy and Vladimir – who are sincerely [ as opposed to engaging in bullshit the public verbal diarrhea PR ] interested in implementing an Ecology of Peace international law social contract? I don't know how sincere or not; any of the other applicants or observers are.

If not; or not enough; that's just the way it is. As previously stated to Agnes Roamer:

I ain't into the cryptic crap; prefer buck stops here in your face no bullshit; but if cryptic crap works for you; by all means go ahead. If time means fuck all to you and ain't important enough to you to speak clearly and you have time to waste; by all means go ahead.

It is quite possible there is allot I don't know about Wayne Moeller, White Nationalism, John McCain, Stasi, Willie Brandt, Rothschilds fucked up elite; and if I knew whatever the fuck it is about them that they are so pathetically hiding from the world; that I may consider him or them to be 'disgusting scum'.

I don't have a definition for 'disgusting scum'; but off hand I would consider disgusting scum to be any individual or group of people who have fuck all concern for engaging in fully informed consenting agreements with others; which would include those who deliberately obstruct the opportunity to resolve problems by means of clear simple justice fully informed consenting agreements.

If my next door neighbour practices responsible freedom [ i.e. is willing to take personal responsibility for breeding and consuming below carrying capacity limits and engaging in fully informed consenting agreements in simple buck stops here in your face crystal clear language ]; and he chooses to be a cannibal and associate in terms of fully informed consenting agreements with other cannibals and eat each other; as for example in the case of [Armin Meiwes](#) and [Bernd Brandes](#); then as long as they do so in the privacy of their homes; then I don't care what they do to each other. People want to participate in fully informed consenting orgies wearing masks in their homes; its none of my business. Doesn't interest me.

What does interest me is being with Timothy McVeigh, and in the absence of being able to be with him; whether an individual breeds and consumes below carrying capacity limits and engages in fully informed consenting agreements. If so: whatever other activity they engage in, whether I consider it fucked up or boring or whatever is really irrelevant; and none of my business as long as it is conducted between individuals engaged in fully informed consenting agreements in private.

If it is clear Meiwes and Brandes were engaging in fully informed consenting agreement; which in Armin's case it may have been more helpful for him to get Bernd to agree in writing before they cut of Bernd's penis; then I ain't got no problem with them choosing to be cannibals. I do have a problem with them breeding and/or consuming above carrying capacity limits, since they are not engaging in fully informed consenting agreements with other species.

If I think anyone needs to amend their breeding or consuming behaviours; or be exterminated; then I prefer to inform them of such information in [buck stops here simple justice language in black and white for the record](#); give them the opportunity to honourably object with evidence or amend their behaviour and only be exterminated/executed or whatever you wish to call it; if they refuse. But most of the courts won't accept the complaints without providing any written reasons for their obstruction of access to court; the few who did accept the filing of the complaints; totally ignored the arguments and evidence; particularly evidence of the fraud of the Masonic War is Peace international law social contract and its Masonic War is Peace innocence for sale indulgence lawyers, prosecutors and jurists; and won't provide any reasons for their refusal to consider the arguments and evidence against them.

\*~~~~~\* \*~~~~~\*

**Caveats:**

**EoP culture interpretations:** are based upon (a) granting the [EoP Read Receipt Applicant](#); [EoP Read Receipt supporter](#) and/or [WiP culture](#) member speaker, the benefit of the doubt their plausible deniable statement or action of commission was motivated by sincere concern about honourably resolving [Ecology of Peace v Masonic War is Peace culture issues in dispute](#); and (b) if reported via War is Peace media that such media accurately reported/translated the speakers statements.

**Factual Reality vs Interpretive Reality:** No interpretation herein is stated as a fact. Any interpretation herein implied of another persons motives could be anything from 001% upto 100% correct or incorrect. Until confirmed; they are only working hypothesis interpretations; NOT FACTS. If an interpretation is accurate; that does not imply either party has agreed to the interpretation in terms of any agreement between the parties. It is not possible to conclude any agreement until both parties are clear that their interpretations of the terms are accurate. Verbal or written agreements which do not fulfill the four requirements of a lawful, binding contract, namely: (1) Full Disclosure; (2) Equal Consideration; (3) Lawful Clear and Concise Terms and Conditions simply explained; and (4) Signatures of both/all Parties; are null and void.

Reminder: Factual Reality is founded upon FACTS: what happened, who said what, who did what to whom, how and when. We create the world by noticing who, what, when and how via our senses of sight, sound, smell, taste, and touch. Interpretive Reality is founded upon the INTERPRETATION OF FACTS (i.e. motives, causes, etc); commonly referred to as the 'why' behind the whom, when, how and what. When we consciously or unconsciously think about 'why' the whom we observed did or said what and how and when; we enter into subjective interpretive reality. Brad:

More 'pretend I don't know who the fuck Elijah Blanton is' jokes from Elijah's friend Michael; pretending he does not know who Elijah is; so Elijah does not have to confront the reality about his two faced gutless fucking wonder coward of a sperm donor tits and ass slut chasing father; whose primary purpose in life was to fuck tits and ass sluts; not be a father.

This is becoming hilarious.

I am a theater director living in San Diego, California.

I really don't know who any of the people are in this e-mail or what anybody is talking about.

[Kremlin Opens new Opera Front in Culture war: Kremlin Culture ministry fires Novosibirsk theater director Boris Mezdrich for offending conservative religious feelings with avant-garde militant atheist production by Timofey Kulyabin of Richard Wagner's opera Tannhauser depicting Jesus decadent youth](#)<sup>1</sup> ~ [Tannhauser](#)<sup>2</sup>: knight and poet who found Venusberg, spent year there worshipping goddess, until filled with remorse travels to Rome to ask Pope Urban IV for forgiveness. Urban replies forgiveness is as impossible as it would be for his papal staff to blossom. Three days after Tannhauser's departure, staff blooms with flowers. Depicts human seduction with living in delusions ~ [Wagner's Tannhauser opera](#)<sup>3</sup>: is based on the Tannhäuser and Wartburg song contest legends. The story centers on the struggle between sacred and profane love, and redemption through love, a theme running through most of Wagner's mature work ~ [Woman who had no shadow](#)<sup>4</sup>: A woman, wishing to have no children, threw rocks in a well at a witch's direction. Thereafter, she had no shadow. Her husband, the parson, demanded to know why and threw her out, saying that their slate roof would blossom with flowers before she was forgiven. One day, a beggar woman sought refuge there; she died in the night, the parson recognized her as his wife, and the housekeeper called him out to see how the roof had bloomed with flowers. The legend of Tannhäuser features the same growth as evidence of miraculous forgiveness. ~ [Timofey Khryukin Krasnodar Krai Stalingrad Operation Bagration 19 April Hero](#)<sup>5</sup> : [Kaunas Offensive: 28 July – 28 August](#)<sup>6</sup> - [Kaunas sailing bull love righteousness landlords Soviet Jewish massacre](#)<sup>7</sup> –Napoleon's hill Jiesia (Pajesys) hill fort mound is located in Kaunas, Lithuania, on the left bank of the Nemunas, between the Panemunė and Railway

Reminder: Factual Reality is founded upon FACTS: what happened, who said what, who did what to whom, how and when. We create the world by noticing who, what, when and how via our senses of sight, sound, smell, taste, and touch. Interpretive Reality is founded upon the INTERPRETATION OF FACTS (i.e. motives, causes, etc); commonly referred to as the 'why' behind the whom, when, how and what. When we consciously or unconsciously think about 'why' the whom we observed did or said what and how and when; we enter into subjective interpretive reality. Correction: "about 700 of those read receipt supporters left to be notified they are being 'evacuated'" is inaccurate. Outlook showed 700, but it was only counting those who were 'bold' ie. marked as unread; whereas there were others who still had to be notified of impending evacuation who were marked as read; but were not counted. The number of 'read receipts' to be notified of required to update to unconditional or conditional co-operator are; as of: 08 Aug 2015: approximately 1050.

If you sincerely care what it means; you would first have to read it. Once you have sincerely read it; with a sincere intention to attempt to understand it; whatever you do not understand you would – if you were sincere – clarify; as in 'I don't understand this or that sentence; or so on.'

Have you read it?

I am unable to read it for you.

Mr. Schwarz

I don't really care if you are Michael Schwarz or Elijah Blanton.

I provided you with information. You have two options: Decide if you are sincere. If so; I am happy to answer any question you have; once you have demonstrated your sincerity by reading the information.

If not. I have informed Carsie Blanton that I shall not be sending you or her any more information; unless you are specifically mentioned in such correspondence. She says you are her brother. You have not bothered to find any honourable bone in your body; if you have any; to accuse her of lying.

Make up your mind if you are sincere; or not. If not; I can forward your emails to the MOSSAD or KGB or NSA and they can help you make up your mind whether you want to be sincere; or not. Is that what you want?

I am sincere [EoP Oath ([PDF](#))]. Make up your mind moron!

Lara Johnstone.

**RE: 4643-2578: SS44: re: Elijah Blanton, Carsie Blanton, Michael Schwartz; Brad Blanton**

Elijah Blanton: Please find the following correspondence ([PDF](#)) sent to you; via Director of Max Fischer Players theater; as you stated you were on your facebook page a few months ago. It has only taken kike Michael Schwartz 6 months to clear up and simplify his language to provide a straightforward no bullshit answer. He says he does not know about any person named Elijah Blanton. So either you were lying on your facebook page about being the Director of Max Fischer Players theater; or he is lying that he does not know you. Either way; here is the information that was originally sent to you; via Max Fischer Players theater director: Michael Schwartz.

\*~~~~~\*\*~~~~~\*

Mr. Michael Schwartz: I have told you before. Mr. Elijah Blanton's Facebook profile stated that he was the Director of Max Fischer Players theatre. The email address to which I sent the correspondence was the email address on Max Fischer Players theater.

May I suggest you adopt buck stops here simple and straightforward no bullshit clear fucking language; so that you shall be better understood. For example: "Ms. Johnstone. I am not Michael Schwartz; and I have never heard of anyone named Elijah Blanton; who does not now and never has had anything to do with Max Fischer Players theater."

Lara,

I've received many emails you've sent to support@radicalhonesty.com over the last year or so. I imagine that you still resent Brad for saying that you don't get it. I am going to try to explain what I think he meant.

You seem like you are suffering from your mind's moralism. I see this in your use of the terms /Radical Honoursty/ and /Ecology of Peace v. War is Peace/.

The practice of Radical Honesty is the opposite of ideals about honor. Being honest for moralistic reasons (such as honor, which is inherently about maintaining a reputation) isn't necessarily better than lying for moralistic reasons (either way you're suffering the sickness of moralism instead of treating it).

I have excerpted some of what Brad wrote in Radical Honesty about moralism. I urge you to re-read his books and consider seriously the idea that your moralism of Ecology of Peace is a source of your unhappiness.

/The disease of moralism in adults is characterized by hysterical faith in the mind./.../Adult moralists are always angry people. The more the moralist is confronted with sloppy old experience, the more hysterical he or she becomes. We all get hysterical, but some of us lighten up and come to our senses more often than others. Some of us operate from hysterical moralism most of the time.... //More lawyers have come to me for therapy than have members of any other profession, and it's not coincidence, since so much of their training is to learn to live by rules. \*One important rule they try to live by is that the proper way to be angry is to have a fight using the rules\*. /

I notice you file a lot of court documents and the bulk of your correspondence is legal (or quasi-legal) in nature. You're trying to have a fight with rules but you want to have a different set of rules to fight with. Changing the rules isn't going to free your being from the tyranny of your mind.

/\*The gap created by lack of grounding in our experience leaves us dependent on ideas, principles, rules, values, and imagination as our primary modes of orientation\*. These ideas and values are tightly held in the same way an adolescent grasps onto roles when he joins a gang or becomes a Christian or a Hare Krishna or falls in love and gets married in high school. Without roles and rules we fear we will lose control of ourselves. We will go crazy. We will lose our minds. The more intensely these rules and roles are

defended, the further removed from grounding in experience the individual becomes.

After enough practice at role-playing and idealism, \*our whole way of orienting ourselves in the world depends on principles of orientation rather than on the ability to respond as needed based on what we perceive\*. This moralism, this web of entrapment of human aliveness, is a crippling disease. We all have it. It is terminal. It cannot be cured. It's a hell of a lot worse than herpes. It is as deadly as AIDS. It is in our schools. It is in our minds. It is in the bloodstream of our culture. It is in this book. /

And yes, it is in this email, from me to you. It's not possible to talk about your mind's moralism without waking mine.

/Moralism is a disease in which "good" and "bad" become more important than "alive" or "dead." The heart of the disease is hurt and anger and fear of losing love and hysterical hope that we can somehow figure out how to be good enough to keep hurts from happening again./

/In this quest, control is one of the first things children learn that they need to learn. That was just one of those things we found out when we grew up: we needed to get control of ourselves. But the imposition of control is often the source of anger. The imposition of control on anger is the source of even greater anger.  
\*Displacement of anger in the form of judgments\*\*and internal moral resolves \*\*results in the child learning to hate everybody else\*\*and eventually himself as well\*./

And

/\*Therapy consists primarily of teaching people how to \*\*re-contact the experience that exists below their moralism\*\*, or below ideas about how life is and how it should be\*. The experiencer normally blocked by moralistic resolve will then gradually come to the foreground, and the moralism, while remaining intact, will recede to the background. One's life changes, of course, after such a transformation, but the point is not the change. The circumstantial changes are almost incidental; the point is the shift of figure and ground. The figure in the foreground, the mind-bound, harried, "shouldistic" warrior, moves to the background - still alive and well and whole, but no longer leading - and the heretofore background figure, the quiet animal who walks and laughs, taking what's so in nature, comes to the foreground - even in the city, and even at work. Such a shift is a matter of grace and strikes only those in good-feeling shape who are ready to receive it. /

And

/Reorientation of the being to sources other than the mind is based on being in touch with one's own body and noticing things in the world. During these times the opportunity for freedom occurs - freedom from the previously developed network of thought. Thinking becomes merely something else to notice and use when one has become

reoriented to experience. \*Thinking loses its prior status as the primary ruler and jail-keeper of being and becomes more like the chauffeur\*./

/Being trapped in the jail of the mind is a disease called moralism. All relief from moralism is temporary because there is no permanent cure. /

Mike:

Lara is a member of an Ecology of Peace culture [EoP Oath ([PDF](#))].

Thanks but no thanks. Lara has a copy of Radical Honesty and Practicing Radical Honesty.

If Brad gave a flying fuck about being honest; he would have titled them “Radical Hypocrisy: How to pretend to give a fuck about honesty and forgiveness; while doing sweet goddamn fuck all about the root causes of ecological resource conflict sources of conflict.’

Lara has noticed the following Ecology of Peace facts:

1. Earth is not flat
2. Resources are finite
3. When humans breed or consume above ecological carrying capacity limits, it results in resource depletion, scarcity and conflict.
4. To sustainably protect and conserve natural resources in accordance to local and national carrying capacity limits; and restrict national and international inter-cultural resource war conflict; humans must implement an international law social contract that restricts all the worlds citizens to breed and consume below ecological carrying capacity limits.

You are quite entitled not to give a fuck about Ecology of Peace facts; if you want.

Lara received more In Your Face honesty from Michael Martin in one day; than she did from ‘In your Ego Mindfuck head’ Brad Blanton in 15 years.

**RE: 4643-2578: SS44: re: Elijah Blanton, Brad Blanton; RH Support Mike**

Some quote notes I made this morning before reading your email; don't know if relevant for you or anyone else:

"We value your service and we're not going to run this like a doggone flesh farm. .. We have not, in the Army Reserve, applied the positive leadership necessary both in terms of how we treat people but also in our personnel practices and procedures to entice them to feel wanted, respected, admired." -- Lt Gen James Helmly, Chief of US Army Reserve.

LJ Comment: The Masonic War is Peace military, corporate, religious, political elite will continue to run not only the military; but their own cannon-fodder foot soldiers; like a doggone flesh farm; until the day they find their spines and provide crystal clear 'precision force' language definitions for among others; with regard to concepts in his statement: 'the enemy'; 'feel'; 'wanted'; 'respected' and 'admired'.

"[S]o, with Richard Cheney's presidential meat puppet doing the rounds in the former Soviet Union, wagging his blue-blooded, Texas National Guard finger at Russians for the Molotov-Ribbentrop Pact... at the people who laid down 27 million lives to soak Hitler's fascism into their very heartland and crush it. This administration, which has posited expansionary war as the organizing principle of its nation, now shifts the onus for Hitler's lethal failure of his own project of expansion from the perpetrators to those who were most savagely victimized by it. Any self-respecting Russian within arm's reach of George W. Bush should slap the fucking taste out of his mouth." - Stan Goff <http://tiny.cc/SG-BDDraft>

"Rumsfeld should add to his list of Rumsfeld's Rules, "You can't have your cake and eat it too." Dick Cheney is occasionally rolled out to speak, and when he does he often says the damndest things. On January 14th, when speaking to the Los Angeles World Affairs Council, he described a decades-long war in which there might be hundreds of thousands of American casualties. Then they re-medicated him and took him back home." - Stan Goff <http://tiny.cc/SG-Draft>

"We are all bound in many ways to our pasts, even when we have transformed ourselves. Mike Ruppert was a cop, so as a professional muckraker he sees corruption and criminal conspiracy first. Given the nature of the muck he's raking, the US economic and political elite, he's going to get that part right at least 90 percent of the time. As a long standing member of the US armed forces, subject for more than two decades to the whims of commissioned officers, I will have a tendency to see grotesque careerism, arbitrary mismanagement, poor judgment, and self-important macho stupidity. I will be right at least 90 percent of the time.

Some people don't transform themselves, they just stay on trajectory, get older, then become ridiculous... or in some cases, dead. Like Special Ops guys who just can't get over their terminal Rambo-mystique, and end up populating the newly opened niches of privatized war." - Stan Goff, <http://tiny.cc/SG-Mercs>

"The introduction of privatized militaries does not apply "precision force" to the specific problem, it exacerbates it. It is the asymmetry of the bureaucratically named "battle-space" that adds a much higher degree of complexity and unpredictability ("chaos") to warfare. Warfare has numerous spatiotemporal dimensions, a politico-economic dimension, a cultural dimension, and

a symbolic dimension, with each and all of these dimensions recursively influencing the other. The addition of new battlefield variables – with the introduction of additional and differentiated combat units with separate lines of accountability – increases this “chaos” by orders of magnitude. I talk about this battlefield “entropy” in some detail in Chapter Five of my book, *Full Spectrum Disorder – The Military in the New American Century* (Soft Skull Press, 2004). In fact, that chapter (called “Somalia: The Meanings of Bakara”) predicted that another Mogadishu would happen in Southwest Asia, and Fallujah on March 31 was a frighteningly accurate fulfillment of precisely that prediction.” - Stan Goff, <http://tiny.cc/SG-Mercs>

Ecology of Peace interpretation of possible relevance for Masonic War is Peace gamers:

“As I used to kid my teammates, how do you defend something you can't see? .. We're certainly not as far along as I would like but it's not because of a lack of effort... In an era of declining resources we've ... got to do this together and we've got to divvy up who's going to do what.” - Adm Mike Rogers; [Operationalizing Cyber is New Commanders Biggest Challenge](#); [Admiral Mike Rogers Bio](#); [Rogers takes over NSA, Cyber Command posts](#).

“The day is not far off when we are going to have to deal in straight power concepts.” - George Kennan; ['The Oil We Eat' Following the Food Chain back to Iraq](#).

“Change is no longer an option – it is a necessity for our nation’s security.” - Lt Gen Mike Flynn

“Flynn had challenged the Obama administration narrative that al-Qaeda’s brand of nihilistic extremism had died with Osama bin Laden in 2011. He had bruised egos at the DIA trying to transform the 17,000-person bureaucracy into a more agile and forward-deployed intel operation, one shaped by the lessons he had learned as intelligence chief for Joint Special Operations Command in Iraq and Afghanistan, working for the ill-fated iconoclast Gen. Stanley McChrystal. As early as 2010, Flynn made waves with a report, Fixing Intel, that said US intelligence could not answer “fundamental questions” in Afghanistan.” - [Flynn's Last Interview: Iconoclast Departs DIA with a Warning](#)

“By allowing capital to flow unchecked from one end of the world to the other, globalisation and abandon of sovereignty have together fostered the explosive growth of an outlaw financial market. Indeed the engine of capitalist expansion is now oiled by the profits of serious crime. From time to time something is done to give the impression of waging war on the rapidly expanding banking and tax havens. If governments really wanted to, they could right this overnight. But though there are calls for zero tolerance of petty crime and unemployment, nothing is being done about the big money crimes.”  
Christian de Brie; [Thick as Thieves: Crime: the Worlds Biggest Free Enterprise](#)

“A global society claiming to be built on the ruins of national laws without trying to rebuild social standards on another level, changes the agora into a vast bazaar where even governments rush to sell their regulations to the highest bidder. The scarce thing is not, of course, crime, but what it exploits: the law, which three developments have transformed into a market. ... This globalisation has been built on a frenzy of deregulation, and to turn back the tide would mean venturing to build a new world order the very mention of which provokes a shudder. .. The results of the battle against money laundering, corruption, fraud and international trafficking are derisory. They represent only a tiny fraction of a lawlessness that is exploding everywhere. International crime amounts to hundreds of billions of dollars every year, all of it quietly recycled in the formal economic and financial systems without anyone really worrying about it. ... What we must do is to draw the conclusions from globalisation and recognise that the international community is entitled to impose the minimum standards of the rule of law on the

gangster states and their private and public accomplices. But then we would have to go without the enormous profits from the shameless exploitation of the law market.”

The lowest current estimates of International Banks derivatives meltdown crisis is \$1.4 Quadrillion.

\$1.4 Quadrillion is roughly (a) 40 times the worlds stock market; (b) 10 times the value of every stock and every bond on the planet; (c) 23 times world GDP.

So imagine the world derivatives bubble bursts tomorrow; that will reap a financial tsunami that wipes out initially all the banks; but the money the banks have been using to play these derivative casino bets; was not their own money; but the banks clients money. So all the worlds stock markets [ in terms of all the financial transactions, debts and credits on their balance sheets ]; every stock and every bond on the planet; and the entire worlds GDP: BANKRUPT.

Put differently every multinational corporation, bank and government on the planet will be bankrupt. In terms of their auditors bookkeeping debits and credits on their bank balance: BANKRUPT.

At this point a massive wealth transfer will occur.

"What are written about in history books is wealth destructions but they're not really, they're wealth transfers, if you look at them the way I do, which is that before and after the Wymar hyperinflation experience they are just as many acres of farmland and buildings around and people and productive property plant and equipment. But what happened was a lot of people got wiped out and who owned those things changed hands rather violently and dramatically." – Chris Martinson; Why Smart Money is so Nervous

About 90% of the worlds industrial banks and corporations would immediately be bankrupt and required to cease operations. All the individuals working for them would be without jobs. Fired with fuck all 'thank you for your employee service' handshake. All individuals who had their 'life savings' or 'source of income' as a result of speculating in stock markets; would have those financial assets wiped out. All individuals who are relying on 'pension funds' or 'life insurance policies' would all immediately become bankrupt; with no future source of income.

Put simply: All individuals in the industrialized western world; who consider themselves anything remotely close to 'working class'; going upto 'middle class' and higher would immediately lose their jobs; pensions, mortgages, stocks and savings, etc.

### **Two Wealth Transfer options:**

Masonic War is Peace Wealth Transfer: Instead of 50% of the world belonging to the 1%; 90% of the world belongs to them. One percent elite become overt In Your Face Warlord slavemasters; and the rest of the 99% overt slaves. The treatment of slaves, whether they are allowed to live or procreate; or how they are to be slaughtered, is totally dependent on their Warlord slavemasters goodwill.

that we can all become better than we are. I know we can. But the price is enormous; and people are not yet ready to pay it." - James Baldwin; The Price of the Ticket.

### Caveats:

**EoP culture interpretations:** are based upon (a) granting the [EoP Read Receipt Applicant](#); [EoP Read Receipt supporter](#) and/or [WiP culture](#) member speaker, the benefit of the doubt their plausible deniable statement or action of commission was motivated by sincere concern about honourably resolving [Ecology of Peace v Masonic War is Peace culture issues in dispute](#); and (b) if reported via War is Peace media that such media accurately reported/translated the speakers statements.

**Factual Reality vs Interpretive Reality:** No interpretation herein is stated as a fact. Any interpretation herein implied of another persons motives could be anything from 001% upto 100% correct or incorrect. Until confirmed; they are only working hypothesis interpretations; NOT FACTS. If an interpretation is accurate; that does not imply either party has agreed to the interpretation in terms of any agreement between the parties. It is not possible to conclude any agreement until both parties are clear that their interpretations of the terms are accurate. Verbal or written agreements which do not fulfill the four requirements of a lawful, binding contract, namely: (1) Full Disclosure; (2) Equal Consideration; (3) Lawful Clear and Concise Terms and Conditions simply explained; and (4) Signatures of both/all Parties; are null and void.

Reminder: Factual Reality is founded upon FACTS: what happened, who said what, who did what to whom, how and when. We create the world by noticing who, what, when and how via our senses of sight, sound, smell, taste, and touch. Interpretive Reality is founded upon the INTERPRETATION OF FACTS (i.e. motives, causes, etc); commonly referred to as the 'why' behind the whom, when, how and what. When we consciously or unconsciously think about 'why' the whom we observed did or said what and how and when; we enter into subjective interpretive reality. I do not currently require a visa to China as I do not intend to travel to  
China in the near future. I traveled to China in 1993.

In the absence of Mr. Timothy McVeigh arriving at my home in George; the only  
place I intend to travel to, before I depart this 'fuck honour' planet; is  
Siberia.

**Chinese Embassy: "For visa enquiries, please send to nflssf@163.com"**

I have once again received your "For visa enquiries, please send to nflssf@163.com" messages.

If your message is for the attention of Lara Johnstone and/or Andrea Muhrrteyn; may I suggest you (a) clarify such in your message; and (b) clarify in simple english what it is you want or need help with.

For example: I want \_\_\_\_\_ [fill in whatever it is you want]; or I need help with \_\_\_\_\_ [fill in whatever it is you need help with].

If I am able to help you get what you want; or whatever you need help with; I shall do so. The sooner you clarify whatever the fuck it is you want and what you need help with; the sooner I can give you a buck stops here answer. Yes I can help you; or No I cannot help you. That saves your and my time; and our relationship. Next time I may be able to help you; but if you fuck me around now; next time when you need help I may not be willing to help you; cause you have fucked over the relationship wasting my time with your Masonic War is Peace bullshit.

I have once again received your "For visa enquiries, please send to nflssf@163.com" messages.

If your message is for the attention of Lara Johnstone and/or Andrea Muhrrteyn; may I suggest you (a) clarify such in your message; and (b) clarify in simple english what it is you want or need help with.

For example: I want \_\_\_\_\_ [fill in whatever it is you want]; or I need help with \_\_\_\_\_ [fill in whatever it is you need help with].

If I am able to help you get what you want; or whatever you need help with; I shall do so. The sooner you clarify whatever the fuck it is you want and what you need help with; the sooner I can give you a buck stops here answer. Yes I can help you; or No I cannot help you. That saves your and my time; and our relationship. Hi Andrea.

Your blog is amazing. I found it because my blog told me that someone did a keyword search for: "John Michael Greer critics". When I pasted that into a google search, I found your blog.

I call myself Futilitist, but the Charlatan John Micheal Greer once refered to me as a cat taking a shit on his kitchen linoleum!

"Oh, man. This is too funny. Loren, you've accused me of deliberate dishonesty, labeled my ideas "dumb" and "silly," made sweeping and wildly inaccurate claims about my motives, mischaracterized my ideas to an extent that makes me wonder if you've ever actually read anything I've written, flung around insults with a fine disregard for even the most basic notions of civility...but when I show up to comment, all of a sudden you're all formal politeness and why don't we have a nice friendly debate? I'm reminded forcibly of the time I watched a cat who'd had a bowel movement on the kitchen floor and was frantically trying to scratch nonexistent sand out of the linoleum to cover it up."

~John Michael Greer

Here is my first ever blog post after my run in with Greer, which resulted in my lifetime banning from theoil drum.com:

<http://futilitist.blogspot.com/2012/08/the-cat-in-john-michael-greers-kitchen.html>

This next one is a formal indictment of the Charlatan John Michael Greer:

[http://futilitist.blogspot.com/2012/09/lets-get-real\\_1.html](http://futilitist.blogspot.com/2012/09/lets-get-real_1.html)

And this one is my long awaited, formal analysis of JMG's so called Theory of Catabolic Collapse:

<http://futilitist.blogspot.com/2012/09/the-big-formal-scientific-critique.html>

And here are a few more recent blog posts, this time about the fraudulent offspring of the fraudulent theoil drum.com, peakoilbarrel.com:

To engage in problem solving? I see fuck all in your comment that appears to give a fuck about problem solving: confronting the Masonic War is Peace social contract right to breed and consume with total disregard for ecological carrying capacity limits reality. Not a problem; but that is my focus.

To advertise yourself as critic of John Michael Greer; if so: you got what you want.

I don't really give a fuck about amazing blogs; I do give a fuck about accurate honest problem solving focussed information.

To the extent that anyone shares accurate honest information I value such information; to the extent that they share entertaining bullshit; I have better things to do with my time than be entertained by what the majority of Masonic culture's members consider entertainment.

I only read your post: Peak Oil Barrel soft pedals collapse; and I did not find anything there that appeared to indicate that any of those commenting gave a fuck about doing anything about the Masonic War is Peace social contract; whose consequences they endlessly whine about.

If you want to problem solve the Masonic War is Peace social contract; by all means do so. If not: kindly fuck off!

Hi Andrea.

It's Futilitist, not Futilist.

What's with the rudeness toward me? I don't deserve it.

I accidentally found your post on the hypocrisy of JMG, and I thought I would share some of my experience with that asshole with you. It was on topic and I thought you might find it interesting. You apparently didn't even read the JMG stuff I linked. Never mind.

We are about to experience a massive social collapse and human die-off. There is nothing that anyone can do to stop this. I seriously doubt there is any way to accelerate it either.

I study social psychology and social theory. My expertise is in mimetic theory (imitation science).

Some of the Snowden JTRIG documents are classroom teaching slides for operatives doing psyops, using sophisticated techniques derived from mimetic theory. This really pisses me off, so I find these CIA trained monkeys (and websites) online and use my greater expertise in mimetics and social theory to trick, confound, expose, and discredit them. I am fighting fire with fire. My blog is a part of that ongoing work. It documents my various online adventures for any actual human readers who might be interested, and it tweeks my rivals.

So, I am a meme disruptor trying to "solve" the "Masonic War is Peace social contract" by directly confronting it's propaganda machine on the internet every day. I realize I am tilting at windmills.

What I do is not fun. It is hard work. I am disappointed that you don't understand.

But I am a true philosophic Futilitist. As such, I believe my efforts to stop the "Masonic War is Peace social contract" are largely in vain, as are yours.

I think we just have different reactions and approaches to the same thing. I don't attack your sincere efforts. You shouldn't attack mine. Have a nice day.

Thanks for the information. John Michael Greer is not on my priority list. I read his blog because I found a significant amount of what he had to say to be useful information.

My post was constructive criticism to him; to sincerely engage him on the particular issue in disagreement. He was not interested in a sincere discussion about clarifying the possible misunderstanding; on his blog. Not a problem. I never called him an asshole. We simply had a disagreement on that particular issue. If or where I agree with him on any other issue; I am more than willing to back him up on that issue.

For me it is about issues; not ego mindfuck personalities.

I have fuck all interest in your fuck honour emotional psyops ego mindfuck war with John Michael Greer. If you want to play fuck honour emotional psyops ego mindfuck 'fuck fuck' games with John Michael Greer; go to his blog or send him an email.

fascism; vanishing species, toxic pollution, racism, nazism, and a dozen other isms; genocide, organized violence resource wars; corporate and political corruption; etc -- are only symptoms of humans living their procreation and consumption lives in accordance to Masonic War is Peace national and international law social contract; where so-called 'rights from their ecologically illiterate Masonic Ego-Phallic God/s'; granted them the right to breed and consume with total disregard for ecological carrying capacity limits.

As long as humans insist on living in accordance to Masonic War is Peace social contract; they shall continue to overconsume/procreate and experience Predator-Prey Growth and Collapse of Civilization/Empire cycles: Greco-Rome, Minoan, Mycenaean, Sumerians, Akkadian, Assyrian, Babylonian, Achaemenid, Seleucid, Zhou, Han, Tang, Song, Parthian, Sassanid, Umayyad, Abbasid, Mauryan, Gupta, Maya, Hittite, Harrapan and Teotihuacan. Collapses result from (1) Ecological Strain and (2) Economic Stratification and include the disappearance of between 90-99% of the populations (from famine, disease and organized violence resource wars) including their kings, Gods, calendars and other complex political and cultural institutions. [NASA: [Human \(Predator\) and Nature \(Prey\) Dynamics \(HANDY\) studies](#)]

Only the implementation of an Ecology of Peace social contract based upon Ecology of Peace Factual reality; will abolish the Tragedy of the Commons externalization of procreation/consumption costs.

Ecology of Peace Facts:

1. Earth is not flat; 2. Resources are finite; 3. When humans breed or consume above ecological carrying capacity limits, it results in resource conflict; 4. To sustainably protect and conserve natural resources in accordance to local and national carrying capacity limits; and restrict national and international inter-cultural resource war conflict; humans must implement an international law social contract that restricts all the worlds citizens to breed and consume below ecological carrying capacity limits.

Put differently: An Ecology of Peace social contract would require every citizen to practice responsible freedom procreation and consumption; and personally bear the consequences of refusing to do so; by having their 'cheater/taker' genes removed from the genepool. Currently Cheater/Takers externalize their procreation/consumption costs; to get Eco-Innocent/Leavers exterminated from the genepool.

Hi Andrea.

Please call me Futilitist, not Futulist. Just cut and paste to be safe. It is childishly rude to fuck up people's pseudonyms.

Let me see, that's 6 fucks in your first post to me, including a "kindly(?) fuck off!", at the end. My sincere response to that drew another fuck-filled post to me, this time with almost twice as many fucks (11) for a total of 17 fucks in 2 short posts. It makes me naturally curious to see if I next get an even greater number of fucks, indicating an ever increasing emotional response. But that would be overkill, since the tell is already quite evident.

I don't care about Greer either. I once did, but I am *\*WAY\** over it. After I read your blog post, I really just thought you might find it interesting. Your response has been *\*WAY\** over the top. Never mind.

There is no "'buck stops here' root cause problem solving" way to deal with an inherently corrupt system like civilization. We are all just lucky(?) it is about to solve itself.

I guess it would be sophomoric to point out that you have a blog connected to the "Masonic War is Peace culture"'s internet, and you write proper legal briefs to "Masonic War is Peace culture" courts that don't give a shit about what you are saying. You are as much a part of the system as anyone. It is hard these days to truly live outside of the "Masonic War is Peace culture". Thinking you can somehow defeat it is a fantasy.

For a member of an "Ecology of Peace culture", you sure say fuck a lot. Peace and anger don't really mix that well.

And from a Darwinian perspective, an "Ecology of Peace culture" is utter sloganeering nonsense. All human cultures are "War is Peace" cultures. Game theory makes that inevitable. You simply can't change way evolution has hard wired us. Biological evolution trumps cultural evolution every time.

Oh, and the "Masonic" thing makes you sound loony. Just saying.

I am glad you are open to discussion, and that you don't censor your blog. But I don't think you really understand where I am coming from (or that you wish not to).

Or maybe I spoke too soon. As I just went to hit post, I noticed it now says: "Comment moderation has been enabled. All comments must be approved by the blog author." Wow. It's a good thing I save all my comments, too.

----- begin excerpt -----

@Pam

Thanks for response. Taking time to digest is a good idea. Going back to pre-civilization history, to understand how totalitarian agriculture changed gender and inter-tribal relations, and the effect on current relations is a big step, towards going to the root of the problem.

My comments here are my experience and working hypothesis, I do not pretend they are an absolute truth, and am totally willing to change them, given evidence to the contrary. I welcome you to do so, if you wish. You appear passionate about your perspective of white supremacy, and if you can point out errors in my thinking, thats great.

The Masonic Human Factory Farmers 'management of the seething energies of lucifer' (or what you call white supremacy) would prefer that you do not investigate the root of the 'white supremacy' brain tumour problem, but simply focus on the symptoms, and take aspirins (soma) to make you feel better that you are doing something about the problem, while you are in fact only dealing with the symptom of the problem.

Racism/White supremacy is one of the most public overt dominant symptoms of the covert secret (society) dominant system on the planet. 'Racism' is the headache symptom of the root cause brain tumour.

One of the ways in which the secret societies divide and conquer and manipulate is through the use of abstract language; and the general public's ignorance of the use of abstract language to manipulate and control, by means of failing to provide clear and succinct definitions for thier abstract terminology.

My definition of racism: A belief about one individual or groups 'superiority' to another individual or group cannot be legally 'racist/supremacist' (i.e. morally unethical); if it is (a) sincerely held (the believer sincerely with all his heart believes the erroneous objectively false belief); and/or (b) objectively true.

A belief about 'racism/supremacy' can only be legally 'racist/supremacist' if it is (a) insincerely held (if the person knows of evidence to the contrary, or if the person deliberately avoids engaging with persons who provide him of information and evidence showing his 'supremacy' ideas to be false).

Would you agree I would be an absolute moronic imbecile to refuse to admit that (a) Venus Williams is superior at tennis to 99% of all women on the planet?; (b) the bushmen are superior to blacks, africans and asians at living sustainably and in harmony with nature and other species?

Imagine I accused you of 'racism' for saying Venus Williams is superior at tennis to 99% of all women. Wouldn't you think I was either (a) dum\*\*\*k stupid; or (b) maliciously refuse to admit to a fact of reality; for the purpose of attempting to maintain some 'moral authority' by screaming 'racist'?

I have no problem admitting when any individual from any race, has a skill, or character trait, or behaviour that is superior to me. NONE. Admitting another's superiority on any skill, is an opportunity to study that individuals skills and thereby improve your own skills. Denying their superiority, denies you the ability to learn their superior skill. Check out the research of Dunning and Kruger; about how ignorant people refuse to admit they are ignorant, and thereby remain ignorant. I have no doubt that there are many skills you may have wherein you are way superior to me; and that there are other skills that I may be superior to you at. That is the reality of living in a world of individuals, as opposed to grey conformist automatons.

Why do black people avoid a discussion about why they refuse to procreate responsibly? Why is it racist to ask a black person: 'why do you have so many kids you cannot afford; don't you know about contraception?' Why can black people not admit that they have trouble controlling their sexuality, in terms of the procreation consequences, breeding unwanted and unloved children into poverty and misery? What must I, as a white person say to other white people, when I confront them about their bigotry, when they ask me why they should take responsibility for their inferior morality about how black people are sexually incapable of personal discipline; when black people refuse to take public responsibility for confronting that allegation and examining it, and proving their moral superiority, by doing something about it, if the allegation is true?

When I engage blacks on these issues; they will bring up the issue of slavery, and jim crow/apartheid. For some or other reason I cannot fathom, blacks and jews love victimhood. Whites and asians slaughtered each other, mass murdered each other, enslaved each other, persecuted each other, for hundreds of years. The British English almost exterminated the Afrikaner boers in the Boer war concentration camps (one of the largest genocides of any tribe in a single war). Very very few boers (of whom I am one, a large portion of my ancestors died in boer concentration camps) will use the boer war genocide as justification for current moral incapacity.

Most whites simply confront the reality that their mass murder of each other, and other races of each other, was simply the 'rule of force' / rule of men, system of jurisprudence that was going at

the time; they remember it, and learn from it, but don't wallow in it (except for here and there a group, such as the jesuits, like victim puppies wallow about Luthers reformation). If your ancestors had migrated from africa, to europe, then overtime they would have lost their melanin, and due to living in a freezing climate, had to develop cognitive skills to plan for the future (to avoid starving in winter).

Your ancestors stayed in africa, where they initially created civilizations (zimbabwe etc), and when population pressures increased, they resorted to selling their surplus population as slaves to muslims, for hundreds of years before the white man arrived. Due to living in a year long warm climate, they never developed the cognitive skills for long term planning, to (a) adopt a [K reproductive strategy \(low procreation and lots of emotional, psychological and financial investment into children\)](#); and (b) did not have to develop cognitive faculties to save resources to survive long cold winters (See: [Jared Diamond: Guns, Germs and Steel](#)).

Returning to racism/ws:

The 'system' you call 'racism/white supremacy' is not held up by 'God' or some external force. It is very similar to the snow on a mountain, that is made up of millions of snowflakes. 'Racism' occurs, when enough of those snowflakes (of whatever race/culture) have insincere motives and intentions, and prefer bullshit the public relations, instead of facing reality and admitting to difficult truth; and sincerely engaging with other snowflakes of all races, about what is or is not 'superior' or inferior.

The 'racist' system occurs when enough snowflakes of all races, refuse to honestly and honourably engage, meritoriously about what is and is not superior conduct, and reward those who are in fact superior in any given skill for the community to benefit from such superior skill. Instead malicious snowflakes of all races, prefer to engage in bullshit the public relations to manipulate their fanclub against another malicious snowflakes fanclub, and avoid sincere discussion about what is and is not 'superior conduct'; to establish a system based purely on merit, with total disregard for the snowflakes race, culture, etc. Many malicious snowflakes may hide on the mountain, and the difference between the snow staying on the mountain, or forming an avalanche to create a systemic system of racism/white supremacy, can be as low as the decision of one snowflake!

Quite simply: Do you know of any Muslim and African military, political, corporate or religious leader; or any of their European military, corporate, political or religious white guilt liberal Masonic slavemasters who thinks that Muslims and/or Africans are intellectually, religiously and/or physically capable of conquering their ego's and penis/vagina's to practice Ecology of Peace responsible freedom procreation practices.

I doubt it. I imagine if the majority of Muslim and African military, political, corporate or religious leaders were brutally honest with their Muslim and/or African followers they would tell them: When it comes to your breeding practices; you are not equal to the average white man or woman; you are not even equal to many animals in the wild who are capable of practicing responsible freedom procreation practices and do not breed like cockroaches on viagra. When it comes to procreation equality; the majority of Muslims and Africans could be equal to cockroaches; except for the fact that cockroaches don't pretend they want to be called 'humans'.

Imagine there were one or more, a dozen or a few dozen such Muslim and African military, political, corporate or religious leaders who wanted to or were willing to be brutally honest with their Muslim and/or African followers about adopting a 'jihad / struggle' to conquer their own penis/vagina's and start to breed like humans not cockroaches on viagra; what would be the response of these Muslim and African's white guilt two faced liberal Masonic European corporate, political and particularly media slavemasters?

**RE: 4643-2578: SS44: re: Lara Advice re: Radical Honesty aka Radical Hypocrisy community:**

I stand by my former statements about continued correspondence to Brad Blanton and Radical Hypocrisy cult members. I think it's a waste of our time. We have given Brad and the Radical Honesty trainers dozens of opportunities to inform the court that they give a fuck about practicing what they preach. They have declined to take advantage of that opportunity to demonstrate their good faith intentions to practice what they preach and attempt to resolve the unresolved issues regarding their Radical Hypocrisy cult.

I have not and would not accuse anyone of being legally 'crazy' or 'insane'; if you stuck a gun to my head. It would appear that the majority of what industrial civilization call 'psychologists' or 'psychiatrists' have fuck all problems with accusing any 'heretic' of their system or practices; of being legally 'crazy' or 'insane'; and imprisoning or institutionalizing them; in exchange for financial or other socio-political status bribery perks. So what's the difference between some Islamic fundamentalist religious terrorist upset about someone insulting his fucked up cult Mohammed prophet; and someone pretending to be a 'psychologist' or 'psychiatrist' scientist; while in fact just being nothing more than a PsychoScientificBullshit fundamentalist pseudo-science terrorist upset about someone insulting his fucked up academic psycho-political-parasite social system Ego-bullshit prophet?

If Brad Blanton was a credible psychological scientist; he would not accuse anyone of being legally 'crazy' or 'insane'; without unequivocal evidence in support of such allegation; if you stuck a gun to his head.

Don't waste the time of the few people who are or may be sincerely interested in the implementation of an Ecology of Peace social contract.

These are not the kind of people you can rely upon for 'buck stops here' support; to the contrary.

**RE: VADM Rogers: Re: SF44 ObsInt: Telkom-MWeb George-Blanco-Rhinefield 044-874 Network Fault**

21/05: On the early evening of 21 May; a Telkom-Mweb network fault occurred. The error remained after rebooting the router; so I called Mweb tech support: 087-700-0777. The tech support gentleman said someone else had also had the same network connection fault in

George. He thought maybe Telkom had been doing something on the line; which had disconnected the routers. A while later on the same evening; after I finished reading Tim's linked article to [Socialist Worker: The Terrorists in blue](#)<sup>79</sup>; it occurred again. I did a Google search for the author: Keeanga-Yamahtta Taylor and followed the link to JacobinMag; and it occurred when I clicked on the link to her article: [Black Faces in High Places](#)<sup>80</sup>. Initially the 'network fault' showed the square image with the sad smiley: "This webpage is not available: ERR\_CONNECTION\_TIMED\_OUT". If 'reloaded' it showed the dinosaur: "This webpage is not available. DNS\_PROBE\_FINISHED\_NO\_INTERNET" [SS<sup>81</sup>]. I did something else: went to lie down or watched a documentary; and when I returned to the internet; it had reconnected; and an 'MWeb landingpage had popped up' [SS<sup>82</sup>]; which says among others: The MWeb landing page says: "Maximum Concurrent Connections Limit Reached: Error 604. Your login details are already being used for one or more active Internet connections. Please check if your MWEB login details are currently being used from another computer. If you would like us to disconnect a session for you, simply fax us a completed Session Disconnect Form along with a copy of your ID, or a company letterhead if this is your Company's email address, to 021 596 8388.....".

22/05: On the evening of 22 May I completed the following two GIMPs: [15-05-22 TomeroLeonor Aftenposten Nick Davies NoTW HarryReid-Snap-DarrenRoyMack-WernerErhard-BenBradley](#) and [15-05-22 TT Globalization FastFood Behind Brand McDonalds Ecologist Cookies EarthFirst AndrewTurner-JAGBruce](#).

23/05: When I logged on today; the same network fault had occurred with the same sad smiley / dinosaur error messages. A short while later my mom called to say the internet was down; could I please call MWeb to find out what was wrong. I called and spoke to Graham. We had a disagreement when I asked whether it was possible that the MWeb landingpage popup could have been triggered by someone else either attempting to; or managing to sign into the account or hack it. I asked for his manager. I then spoke to the manager: Mr Donovan Williams. He spoke rather fast; so I was not able to write down all he said. He said among others: "He checked the line; it was down... there was a network line fault in the George – Blanco – Rhinefield areas. The network fault occurred this morning at 05:27 am. It can take anything up to 5 to 7 days to fix a network line fault. If it cannot be fixed virtually; Telkom will have to send someone out to fix the line on the telephone pole." He did not think the network faults were a result of NSA and/or KGB or hacker activity. As the call ended, my mom called to remind me to "Don't forget the grass." She mows the lawn; I collect the grass for composting.

I then took Mila and Roy for their walk to the forest. At the entrance to the forest; there were a couple from a company called ShutterImages in a white truck with logo: one eye; taking photos of another woman sitting with her back to a tree. On our way back; we passed Deon cycling with a friend. Deon is the manager at [George Panarotti's pizza](#)<sup>83</sup>; one of the George Spur Franchise's owned by [Nanno Evenhuis and brothers Kevin and Dean Hahn](#)<sup>84</sup>; for whom I formerly worked as a waitress.

Gen Martin Dempsey & Gen Mulholland:

### **EoP response to USASOC: DCoE Psych Health & TBI Challenge**

As per the repeated suggestion from [US Army Special Operations Command](#)<sup>177</sup>: I have perused the [Defense Centers of Excellence for Psychological Health and Traumatic Brain Injury Challenge](#)<sup>178</sup> pages. The challenge appears zero-sum win-lose game focused; as opposed to sincere problem solving win-win focused.

Summary: In the absence of [Masonic War is Peace](#)<sup>179</sup> military health officials confronting the [root breeding/consumption war causes of resource conflict](#)<sup>180</sup>; efforts such as the DCoE's Mental Health challenge appears to be nothing more than a bullshit the public relations image management campaign of "Lets pretend we give a fuck about soldiers mental health while doing sweet fuck all about the root -- breeding & consumption war -- causes of -- military, economic, cultural, religious, racial, cultural, psychological -- resource war conflict".

I could not find any definition for 'mental health' or 'mental disorder' or 'post traumatic stress disorder'. This may sound strange; but having traveled in many cultures; I don't automatically assume that individuals from other culture's; with different religious, racial beliefs to my own, some with fuck all interest in science and evidence; would have the same definition as I do regarding what they consider to be 'mental health'; or what may or may not be an alleged scientifically verifiable 'mental disorder'.

### **Mental Health in Ecology of Peace culture:**

As you are aware: I am a member of an [Ecology of Peace culture](#)<sup>181</sup> [EoP Oath ([PDF](#)<sup>182</sup>)]. There is no such thing as legal 'mental illness' or 'mental disorder' in the Ecology of Peace culture.

According to Ecology of Peace social contract principles; all members are required to breed and consume below carrying capacity limits; and conduct their relations with other humans based upon fully informed consenting agreements.

If or when an individual engages in non-consensual behaviour with another; its simply that: non-consensual. The violation may be found to be justified or unjustified. If unjustified; no matter how offensive to another person; it would not be a 'mental disorder'.

Significant differences exist in Masonic War is Peace sub-cultures. For example some sub-cultures value constructive criticism and scientific reality as the basic foundation of their socio-economic problem solving and inter-cultural relations; at least as an ideal if not always adhered to; whereas other sub-cultures have an obsessive demand for sycophantic flattery, bullshit the public relations; perception management and secrecy.

### **Mental Health in Masonic War is Peace cultures:**

I am aware of members of Masonic cultures criticism of other Masonic War is Peace culture's application of 'mental disorder' allegations; among others: [Political Psychiatry, Social Control and Big Pharma](#)<sup>183</sup>; [Psychiatry is a Fraud](#)<sup>184</sup>; [The DSM: Psychiatry's Deadliest Scam](#)<sup>185</sup>; [Psychiatry: An Industry of Death](#)<sup>186</sup>; [Age of Fear: Psychiatry's Reign of Terror](#)<sup>187</sup>; [Psychiatry in the Military: The Hidden Enemy](#)<sup>188</sup>.

Similarly mainstream Masonic Psychiatrists and Psychologists continue to pretend that [psychotronic ELF technology](#)<sup>189</sup> does not exist; let alone being willing to consider how such psychotronic ELF technology is and has been used by military intelligence agencies; against their own or each others military and civilian populations.

Whereas Stalinist Communist were honest about their intentions to use psychological 'mental disorder' allegations as a tool of domination and control to silence Communist heretics; Fortune 500 Capitalist's psychological coercion 'sanity for sale' psycho-priests [ similar to 'innocence for sale' lawyers, prosecutors and judges]; hide their corporate parasitic motives to profit from creating as many 'mental disorder' consumer hosts as possible for their parasitic profit; all while pretending to care about the alleged 'mental health' of their consumers.

Ecology of Peace culture correspondence and legal applications to Masonic War is Peace psychologists and Courts include:

1. [Ecology of Peace –v– Masonic War is Peace legal submissions](#)<sup>190</sup> to various national and international courts; some of them dealing with psychological issues; such as in the [correspondence to Masonic Psychologists](#)<sup>191</sup>; and applications to EU Court of Human Rights and Norwegian Courts on behalf of Anders Breivik's right to legal sanity and a treason trial; equivalent to the treason trial given Nelson Mandela by the Apartheid government.

A summary of my experiential observations about the Masonic War is Peace alleged 'mental health' system's alleged 'expert' practitioners:

- ❖ I am unaware of any Masonic War is Peace scientist, doctor, psychologist or psychiatrist whom has ever legally accused another individual of suffering from any 'mental disorder'; or Judge who has consented to the denial of liberty of such a person based upon alleged 'mental disorder' allegations who:
  - has been willing to unequivocally acknowledge their cognitive awareness of the reality that (a) the earth is not flat; (b) Earths resources are not infinite; (c) procreating and consuming above ecological carrying capacity limits results in resource conflict; and consequently psychological and psycho-social conflict over natural resources; (d) in order to reduce or eliminate the psychological effects of resource conflict; it is necessary to confront and eliminate the root breeding/consumption causes of resource conflict.
  - has provided a crystal clear legal definition for the basis of their alleged 'mental disorder' allegation;
  - has provided any 'mental disorder' definition; that includes reference to the contextual resource warfare social contract reality underpinning the source of the psychological and psycho-social conflict manifesting as the alleged 'mental disorder'.
  - prior to such allegation against another; cared enough about ethics and honour; to apply their 'mental disorder' definition psychoanalysis first to themselves and their own beliefs and behaviors; to rid themselves of any of their own 'mental disorders' before attempting to pretend to giving a fuck about helping someone else fix their mental disorders.
  - was capable of sincere active listening; i.e. verifying that their interpretations of whatever their client or the accused had said; was accurate; before simply assuming; based upon their own cultural, racial, class, religious beliefs; that they 'know' and accurately interpreted what their client, or the accused; said and meant.

### **Village idiot Common Sense oddities about Masonic cultures alleged 'mental disorders':**

Many people will cite the loose definition of 'doing the same thing over and over again and expecting a different result' as a definition of 'insanity' or 'mental illness'. However consider a psychologist sitting on a hill looking down on Orville and Wilbur Wright's repeated attempts to get their planes to fly. Such psychologist simply observes from afar, and makes no effort to notice the very small alterations the Wright brothers made after each failure. Such a psychologist would have had the Orville brothers committed to a mental institution as 'insane'.

In the [BBC documentary about John Nash](#)<sup>194</sup>; a psychologist defines “schizophrenia” as “severe mental illness characterized by hallucinations, delusions or peculiar forms of thinking.” Yet none of these psychologists demand the institutionalization of millions of Christians and Catholics who believe in a supreme being they call ‘god’ whose existence has yet to be proven; or millions of Muslims who believe in a being they call ‘allah’; whose existence has yet to be proven. Surely if these Masonic WiP psychologists definitions are scientifically based and non-discriminatory in terms of delusions and hallucinations; then if one person can be institutionalized for a delusion; hundred or thousand should be similarly institutionalized for their delusions. Until the existence of God and Allah are scientifically proven; I think we can say that its possible the belief in ‘God’ and ‘Allah’ can be considered a ‘delusion’.

So why do psychologists tolerate some people’s delusions as ‘sanity’ if they call those delusions ‘religious beliefs’; whereas others delusions are ‘insanity’? How can they consider themselves credible objective observers and analyzers of ‘reality’? Do they know the difference between facts and interpretations?

How many more years shall it be before Masonic War is Peace psychologists and psychiatrists cognitively become aware of the factual reality that (a) the earth is not flat; (b) Earths resources are not infinite; (c) procreating and consuming above ecological carrying capacity limits results in resource conflict; and consequently psychological and psycho-social conflict over natural resources; (d) in order to reduce or eliminate the psychological effects of resource conflict; it is necessary to confront and eliminate the root breeding/consumption causes of resource conflict.

Conclusion: In the absence of Masonic War is Peace military health officials confronting the root breeding/consumption war causes of resource conflict; efforts such as the DCoE’s Mental Health challenge appears to be nothing more than a bullshit the public relations image management campaign of 'Lets pretend we give a fuck about soldiers mental health while doing sweet fuck all about the root -- breeding & consumption war -- causes of -- military, economic, cultural, religious, racial, cultural, psychological -- resource war conflict'.
