Intl Law/EoP Axis/IL Coercion/TTIP RE: USA civilian TTIP Withdrawal from EoP Axis

EoP Axis USA representatives: Republicans: Former President George Bush and Democrats: President Barack Obama shall be removed as EoP Axis representatives; if or when their designated State Department sign the Trans Pacific Partnership Agreement; and be replaced by American military representatives.

Written Reasons:

There has been no response from President Barack Obama and his State Department TTIP negotiators; and Former President Bush to 05 October 2015 EoP correspondence: Re: *USA civilian TTIP Withdrawal from EoP Axis*; which stated:

----- 05 Oct 2015: USA civilian TTIP withdrawal from EoP Axis -----

Obama Administration's prioritization of signing TTIP Trans Pacific Partnership signals its 'No Los Pepes Rules' response to President Putin's 'New EoP Rules or No Los Pepes Rules international law New World Order' [Valdai question](#).

Its not such a bad thing. Better to know where you stand even if that means you stand alone; than to be deceived you stand with others; who are not sincerely committed to your goals; only engaged in bullshit the public verbal diarrhea. Sooner those interested only in bullshit the public verbal diarrhea fuck off; the sooner those who are sincere can make decisions based upon cold hard reality.

It remains to be seen what NATO's 'EoP' or 'WiP' New World Order rules decision shall be.

Other EoP Axis Officials can decide whether they wish to suspend EoP Axis proceedings pending (a) US citizens electing yet another WiP gutless wonder corporate cocksucking Fortune 500's fuck honour resource thieving foreign policy President; or (b) US military officials deciding

whether they would prefer to fight to implement an Ecology of Peace international law social contract; or be their WiP gutless wonder corporate cocksucking Fortune 500's fuck honour resource thieving cannon fodder hitmen.

Our dilemma is that of defining just and unjust actions within our wars and conflicts. It is time to reexamine habits that have come to pass for ethics and ask the sort of questions that are as controversial as they are uncomfortable to the man or woman of conscience ... We must reexamine our concepts of the ethical and the legal. .. The whispered warning that we do not condone "assassinations" because we do not want our own leader assassinated is a counsel of unspeakable cowardice. First, if leaders will not risk the fate they ask of their privates, they are not fit to lead their people. Second, if foreign criminals, official or private, knew that retribution would be generally swift and always sure, attacks on US leaders -- or US citizens overall -- would likely decrease wonderfully. And such a policy would return us once again to an objectively moral path.

These issues demand serious debate. Traditionalists who decry even the possibility of attacking these sources of human misery in such a manner generally do so from campuses or comfortable offices. They are out of contact with our citizenry and its needs, as they are phenomenally out of contact with the sheer violence of this world. They will immediately push the issue to absurd extremes, crying out that such a doctrine would amount to giving our military, .. a license to kill. But the purpose of a military is to kill, and if you cannot stomach that, you should not have a military.

The only operative question is whom the military should kill.

»» Col Ralph Peters: [Revolution in Military Ethics](#)

If General Dempsey's original 'all options are on the table' bullshit the public verbal diarrhoea which morphed into 'the only option on the table is my fragile General ego' are to be the decision making of America's remaining Generals to Privates; then it appears it won't be too long before we can shut down the EoP campaign; and Mother Nature's carrying capacity laws Army can buttfuck all the worlds armies combined on a one way ticket to their 72 virgins or Valkyrie tits and ass slut brood sows heavens.

It would also answer the question: If, during the reign of Corporate Capitalist White Supremacy on planet earth; any of the niggers, spicks, kikes or Commie crackers had chosen to support an Ecology of Peace campaign; as opposed to their Masonic War is Peace breeding war campaigns; the chances of them finding any European secret society or capitalist elite who gave a sincere fuck about honour and an Ecology of Peace future for the benefit of all the species on planet earth would have been very small.

----- End: 05 Oct 2015: USA civilian TTIP withdrawal from EoP Axis -----

EoP Axis USA representatives: Republicans: Former President George Bush and Democrats: President Barack Obama shall be removed as EoP Axis representatives; if or when their designated State Department sign the Trans Pacific Partnership Agreement; and be replaced by American military representatives.

Civilian USA 'Commander in Chief' EoP Axis options with regard to TPP: Trans Pacific Partnership Agreement

USA EoP Axis options with regard to TTIP: Transatlantic Trade and Investment Partnership &/or TPP: Trans Pacific Partnership:

President Barack Obama orders the State Department to withdraw America from the Trans Pacific Partnership Agreement:

If so Republicans: Former President George Bush and Democrats: President Barack Obama shall remain USA 'Commander in Chief' EoP Axis negotiation and final EoP Axis authorization and implementation decision-making representatives.

or

President Barack Obama orders the State Department to authorize America's agreement of Trans Pacific Partnership Agreement:

If or when their designated State Department representatives sign the Trans Pacific Partnership Agreement; EoP Axis USA representatives: Republicans: Former President George Bush and Democrats: President Barack Obama shall be removed as USA 'Commander in Chief' EoP Axis negotiation and final EoP Axis authorization and implementation decision-making representatives; and replaced with Chairman of the Joint Chiefs of Staff: General Joseph Dunford.

If so:

JCS: Gen J Dunford EoP Axis Commander in Chief options:

General Joseph Dunford with feedback from General Martin Dempsey, Admiral Michael Mullen, General Peter Pace, General Richard Myers, General Colin Powell; and back up from Vice Chairman of the Joint Chiefs of Staff: Gen Paul J. Selva; Chief of Staff of the Army: Gen Mark A. Milley; Commandant of the Marine Corps: Gen Robert B. Neller; Chief of Naval Operations: Adm John Richardson; Chief of Staff of the Air Force: Gen Mark Welsh; Chief of the National Guard: Gen Frank Grass choices on how to proceed to implement an EoP – if necessary via [EoP Axis military necessity evacuation](#) measures – [new low tech sustainable economy](#).

Authorize the implementation of EoP Axis Military Necessity Evacuation proceedings:

As EoP Axis Commander in Chief: Gen Dunford can continue EoP Axis negotiations with Russia, China and NATO with regard to the most appropriate [option for the implementation of an Ecology of Peace international law social contract](#).

or

Withdraw America from EoP Axis pending American withdrawal from Trans Pacific Partnership Agreement:

As EoP Axis Commander in Chief: Gen Dunford can withdraw Fuck Honour Multiculti Buttfuck Banana Republic America from *EoP v WiP Shrinking Lifeboat Ethics* [PDF] *New Rules or No Rules* [PDF] negotiations pending Corporate Cocksucking Rape the Planet Fortune 500 American oligarchs and Media appointing an American White House House nigger with Buck Stops Here orders to (i) withdraw from the Trans Pacific Partnership Agreement; and (ii) honourably support the public and transparent implementation of an Ecology of Peace international law social contract.

“Multiculturalism: How, then, does the universe of Capital relate to the form of Nation State in our era of global capitalism? Perhaps, this relationship is best designated as ‘auto-colonization’: with the direct multinational functioning of Capital, we are no longer dealing with the standard opposition between metropolis and colonized countries; a global company as it were cuts its umbilical cord with its mother-nation and treats its country of origins as simply another territory to be colonized. This is what disturbs so much the patriotically oriented right-wing populists, from Le Pen to Buchanan: the fact that the new multinationals have towards the French or American local population exactly the same attitude as towards the population of Mexico, Brazil or Taiwan. Is there not a kind of poetic justice in this self-referential turn? Today’s global capitalism is thus again a kind of ‘negation of negation’, after national capitalism and its internationalist/colonialist phase. At the beginning (ideally, of course), there is capitalism within the confines of a Nation-State, with the accompanying international trade (exchange between sovereign Nation-States); what follows is the relationship of colonization in which the colonizing country subordinates and exploits (economically, politically, culturally) the colonized country; the final moment of this process is the paradox of colonization in which there are only colonies, no colonizing countries—the colonizing power is no longer a Nation-State but directly the global company. In the long term, we shall all not only wear Banana Republic shirts but also live in banana republics.” – Slavoj Žižek: *Multiculturalism: The Cultural Logic of Multinational Capitalism*.

“Another thing that bothers me about this multiculturalism is when people ask me: 'How can you be sure that you are not a racist?' My answer is that there is only one way. If I can exchange insults, brutal jokes, dirty jokes, with a member of a different race and we both know it's not meant in a racist way. If, on the other hand, we play this politically correct game - 'Oh, I respect you, how interesting your customs are' - this is inverted racism, and it is disgusting. In the Yugoslav army where we were all of mixed nationalities, how did I become friends with Albanians? When we started to exchange obscenities, sexual innuendo, jokes. This is why this politically correct respect is just, as Freud put it, 'zielgehemmt'. You still have the aggression towards the other. You cannot do the game of erotic seduction in politically correct terms. For me there is one measure of true love: you can insult the other. When multiculturalists tell you to respect the others, I always have this uncanny association that this is dangerously close to how we treat our children: the idea that we should respect them, even when we know that what they believe is not true. We should not destroy their illusions. No, I think that others deserve better - not to be treated like children. -- Slavoj Žižek: *The one measure of true love is: you can insult the other*.

“... and that night, Gore didn't concede and I wondered what the hell, what is going on; I mean Gore is no less of a player than Bush in these scenarios; I mean they all have big money behind them, sometimes the same money. Cause if you smart enough and rich enough, you bet every horse in the race. So why is Gore not conceding? and then I realized they want us to see; they want us to know; they want us to get the message and it was just as blatant a message as November 22, 1963. I believe that 63's message is 'Yeah we shot the son of a bitch, and what are you gonna do about it? We can kill the president and we sure as hell can kill you; so sit down, shut up and get out of the way.' That's the subliminal message and a subliminal message of the 2004 election was 'we done here had enough about this dumb duhmockery shit, we already told you who won the election, now sit your duhmckery ass down and shut up.' "Get out of the way" is the message and I think they pulled up the pettycoat and let us and let the rest of the world know.” -- John Judge, Special Projects Assistant to Rep. Cynthia McKinney; as reported in *Guns and Butter: We Remember Michael Ruppert and John Judge*.

Paris Choking with Fuck Honour Cop21 Ego Supremacists pretending they give a fuck about climate change

In correspondence to CollapseNet and GMACCC: Global Military Advisory Board on Climate Change; available at EoP v WiP NWO negotiations Comments Correspondence [PDF]: 08 Dec CollapseNet; I stated, among others:

All ideas are not equal.

If some Vietnam Phoenix project terrorists have thrown you out of a plane with a parachute; but you don't know how to work a parachute; then the idea of *'I better think about how to pull the ripchord for my parachute so that I can defy gravity with a scientifically proven method of defying gravity: namely a parachute'* and *'I can defy gravity with some Masonic verbal gymnastics; and once I have redefined gravity so that it does not apply to fuck honour tits and ass kikes New Yorkers; God will amend gravity in accordance to my Masonic law new definition demands'* are not equal.

“Paris is currently choking with ego fuck honour White, Black, Chink, Paki, Coolie, Kike Power environmental moral supremacists; who will continue to whine and whine and whine and whine

and whine and whine and whine about food shortages, food inflation, cost of living increases, urban sprawl, traffic jams, toxic waste, pollution, peak oil, peak water, peak food, peak population, species extinction, loss of biodiversity, peak resources, climate change, feminism, nazism, Islamism, capitalism, communism, militarization of police, etc; while doing sweet goddamn fuck all about the Masonic War is Peace right to breed/consume with total disregard for ecological carrying capacity limits international law social contract; that is the root cause of everything they whine about.”

Put differently:

If the Cop 21 Secretariat gave a fuck about beginning to educate yourselves, those attending your ‘Climate Change Conference’, journalists and the worlds citizens about the scientific ripchord as opposed to the Masonic verbal gymnastics information regarding root causes of Climate Change: namely overpopulation and overconsumption; whose causes are the [Masonic War is Peace](#) -- right to breed and consume with total disregard for [ecological carrying capacity limits](#) -- international law social contract; you would have invited any one of the following speakers to present their information; to begin the educational persuasion process as to how and why it is a matter of [military necessity](#) to implement an [Ecology of Peace](#) international law social contract; that restricts all the worlds citizens from all races, classes and religions to breeding and consuming below [ecological carrying capacity limits](#).

“Climate Change will become a defense and security issue, for four major reasons. There will be water wars, there will be oil wars, there will be massive migration on a scale the world has never seen, and there will be massive food insecurity. The two things of importance to the United States and UK will be issues of migration, which we already have problems with in Europe and the US. It will get much much more extreme. .. So much of our food is derived from Africa and Central and South America, if that starts to fail .. there could be rioting. There is an expression which is called nine meals from anarchy.” – Rosie Boycott, Former Editor of the Independent; [Climate Change and National Security](#).

Tall Ships & Culture Change to EoP Honour Ecofootprint Shrinking Lifeboat Ethics?

According to Werner Erhard: “If we have any desire to create an alternative future, it is only going to happen through a shift in our language. If we want a change in culture, for example, the work is to change the conversation—or, more precisely, to have a conversation that we have not had before, one that has the power to create something new in the world.”

Are you willing to change the conversation; to have a conversation that has not been had before; to have a conversation about – [ecological overshoot](#) resource depletion [tipping points](#) and [resource conflict](#) – national resource shrinking lifeboats decision-making about ‘whom should be removed from the lifeboat aka national genepool; how should they be removed; how many should be removed; by whom and when should they be removed’?

Tall Ships and Honour:

I spent about five years working as a deckhand, able body seaman, first mate and captain on various yachts from 42 ft sloop; to a 45 meter schooner: [S.Y Aiglon](#); at that time owned by the Bavarian Thurn and Taxis Royal Family; to 360 ft tallship [S.Y. Sea Cloud](#). I was the first woman ever hired to work on S.Y. Aiglon; all former crew were members of German military; and one civilian American: Kenny Libby.

I was also the first person to inform Bavarian Royalty they could keep their sailing job and shove it up their ass; when they expected me to shut the fuck up about being treated like a slave, not a human being.

On S.Y. Sea Cloud; I first told them they could keep their Spokesperson job and shove it up their ass; followed by their deckhand job:

On S.Y. Sea Cloud, I worked firstly as a deckhand and later as an able bodied seaman. S.Y. Sea Cloud has German and American officers on six month contracts; a full time Phillipino deck, kitchen and engineering crew, and part-time six month contract European youngsters deck and silver service crewmembers. The male and female Phillipino and Europeans deck crew all share one big communal bunkhouse. The majority of the Phillipino deck and engineering crew are married with families in the Phillipines, but pretend to be single, so as to fuck – consensually or by coercion -- the dumbfuck young European white meat women. Initially they engage in 'you are so beautiful, I love you, and want to marry you' crap, and if that does not work, they engage in coercion. I was not sexually interested in any of them, although I was happy to just be friends and was appointed spokesperson for all the deck crew. It did not last long, because I informed the crew and the captain that I had no problem with young European women fucking anyone whom they wish to fuck, but I suggested that all sexual relations be based upon fully informed consent honesty, from both sides. That the men who were married, be honest about their family status, who are engaging in frequent fucking of white meat, be required to engage in safe sex practices, if their white meat European sluts, requested such safe sex practices. All the white male deck crew were furious with me, allegedly cause I had 'insulted the Phillipino's'. According to their 'Euro-occidental values' it was more important not to insult fragile ego Phillipino males who were abusing their 'euro-occidental' female colleague deck crew, than it was to stand up as proud Euro-Occidental white males with a pair of balls, and demand that these sexual predatory Phillipino's engage in honest, and honourable transparent sexual practices with Euro-Occidental women.

The captain, a Euro-Occidental German refused to implement an honest transparent sexual relation policy for crew relationships. The captain and/or the German shipping company – Sea Cloud – officials refused. It would interfere with their profiteering off of white meat. It turned out that ‘white meat’ from dumbfuck ignorant little blond and blue eyed Euro Occidental teenagers, was one of the ‘financial perks’ being given to the married, many with sexually transmitted diseases, Phillipino crew. Honesty, honour and transparent race and safe sexual relations practices were very low on their totem pole of ‘euro-occidental’ values; when such values came into conflict with using their own so-called ‘euro-occidental’ teenager children for the profit of corporate euro-occidental elite’s profits.

The only person who supported my honesty, honour and transparent race and sexual relations crew policy suggestions on that ship was the Safety Officer: Shaun Cassidy, a former United States Marine. The Phillipino’s were furious, and I received many death-threats. I resigned from my spokesperson job; and informed the Captain that if he refused to inform Sea Cloud to amend their white meat slavery practices; I would nullify my contract. He refused to amend the white meat slavery practices. I nullified my contract and left S.Y. Sea Cloud in Piraeus.

A copy of all my written references; including those from S.Y. Sea Cloud can be found in the complaint to the International Criminal Court: [Lara Johnstone v Desmond Tutu et al.](#)

Summary: Ecology of Peace Culture Shrinking Lifeboat Ethics Answers:

The Ecology of Peace culture’s answer to these shrinking lifeboat questions:

Summary:

Whom should be removed from the lifeboat & how many should be removed:

- All citizens from whatever nation, race, religion or class whose procreation and/or consumption has been and is above ecological carrying capacity limits; who refuse to commit in writing to reduce their consumption and/or procreation to ecological carrying capacity limits; should be evacuated from the planetary genepool lifeboat by national criminal justice government departments.

How should they be removed; by whom and when should they be removed’?

- Worlds Attorney Generals should cooperate to implement an Ecology of Peace international law social contract that requires all the worlds citizens to procreate and consume below ecological carrying capacity limits.
- Once implemented: all citizens from whatever nation, race, religion or class whose procreation and/or consumption has been and is above ecological carrying capacity limits; who refuse to commit in writing to reduce their consumption and/or procreation to ecological carrying capacity limits; should be evacuated from the planetary genepool lifeboat by national criminal justice government departments.

“...an organization cannot have a conservation policy without having a population policy....the problem solving or parasite leeching test — in which the candidate, confronted with an overflowing sink, is classified according to whether he reaches for the faucet or the mop.” – Amended quote of Daniel B. Luten; as quoted by William Milton Cooper in *Behold a Pale Horse*.

“It really doesn't matter, because either way we're screwed. The quicker you understand that, the wiser you become. I believe that any man without principles that he is ready and willing to die for at any given moment is already dead and is of no use or consequence whatsoever. ... If the people really cared about their fellow man, they would control their appetites (greed, procreation, etc.) so that they would not have to operate on a credit or welfare social system which steals from the worker to satisfy the bum. Since most of the general public will not exercise restraint, there are only two alternatives to reduce the economic inductance of the system. (1) Let the populace bludgeon each other to death in war, which will only result in a total destruction of the living earth. (2) Take control of the world by the use of economic "silent weapons" in a form of "quiet warfare" and reduce the economic inductance of the world to a safe level by a process of benevolent slavery and genocide. The latter option has been taken as the obviously better option. At this point it should be crystal clear to the reader why absolute secrecy about the silent weapons is necessary. The general public refuses to improve its own mentality and its faith in its fellow man. It has become a herd of proliferating barbarians, and, so to speak, a blight upon the face of the earth. They do not care enough about economic science to learn why they have not been able to avoid war despite religious morality, and their religious or self-gratifying refusal to deal with earthly problems renders the solution of the earthly problem unreachable by them. It is left to those few who are truly willing to think and survive as the fittest to survive, to solve the problem for themselves as the few who really care. You

must accept that you have been cattle and the ultimate consequence of being cattle — which is slavery — or you must prepare to fight, and if necessary die to preserve your God-given right to Freedom.” Silent Weapons for Quiet Wars; Milton William Cooper; Behold a Pale Horse.

So I am going to provide you a ‘reach for the faucet’ response to Sheriff Mack’s statement in the Truth in Media interview: “To whom can the people turn for peace, safety and liberty; when government becomes out of control and corrupt. If its not your local sheriff; to whom else can you go?”

If any of the disputing parties are sincere about encouraging American veterans, ranchers and citizens to support peace, safety and liberty; I imagine an Ecology of Peace [William Wilberforce](#) and [Eric Liddle](#) would suggest that more than singing Amazing Grace shall be required to free ourselves from [human factory farming slavery enslavement](#); we shall need to have the courage to give up our addiction to the [false left and right wing moral supremacist bullshit propaganda](#) and individual and corporate welfare at the expense of the ecological resource commons that provides us with survival sustenance; and publicly confront the [phallic human sacrifice War is Peace](#) foundation of our secular or theocratic – capitalist, communist, libertarian, socialist, Christian, Muslim, Catholic, Buddhist, etc – religions; and cooperate with national and international authorities to – hopefully nonviolently – [implement](#) an [Ecology of Peace](#) international law social contract that requires all the worlds citizens from all races, classes, religions and cultures to procreate and consume below ecological carrying capacity limits.

“If the economy / your bible / Koran / Torah / Talmud / Masonic Constitution is more important to you than the environment; try holding your breath; while you count your money / read your bible / Koran / Torah / Talmud / Masonic Constitution; and tell me what is more important to your survival: protecting the ecological carrying capacity resource foundation of life: our air, water and food by implementing an international social contract that restricts everyone’s breeding and consumption to ecological carrying capacity limits; so that all species on Earth can continue breathing, drinking clean water; and having organic food to eat; or counting your money / reading your Bible / Koran / Torah / Talmud / Masonic Constitution.” – amended quote of Guy McPherson; who coined the term ‘Near Term Extinction’ [NTE] which he writes about on his blog: Nature Bats Last.

General Mike Flynn: [You can’t defeat an enemy you don’t admit exists.](#)

Any form of capitalism that allows citizens to procreate and/or consume above ecological carrying capacity limits; cannot – according to Tragedy of the Commons principles – do anything else but degenerate into predatory capitalism aka fascism. Of interest regarding the future impending consequences of planetary predatory capitalism: Real News: [Paul Jay’s Reality Asserts Itself: Who Makes US Foreign Policy interview of Lawrence Wilkerson](#); particularly the [predatory capitalism](#) part; which deals with the necessity of the great powers cooperating to implement a new economic order; to address the massive impending planetary social conflict problems resulting from climate change, peak food, peak water, peak oil, including how and where to bury 6 billion people.

“If you can't explain it simply, you don't understand it well enough.” - Albert Einstein

1. Economic inequality; psycho-social resource conflict conformity pressures; climate change, food shortages, food inflation, cost of living increases, urban sprawl, traffic jams,

toxic waste, pollution, peak oil, peak water, peak food, peak population, species extinction, loss of biodiversity, peak resources, nation states standing army or dissident guerrilla army 'terrorism' resource war military aggression, etc – are a direct and indirect consequence of overpopulation and overconsumption.

2. Overconsumption and overpopulation are a direct consequence of humans procreating and consuming above ecological carrying capacity limits.
3. Humans procreate and consume above ecological carrying capacity limits because the current international law social contract; allows nation states to provide their citizens with the implied 'right to breed and consume with total disregard for ecological carrying capacity limits'.
4. Humans will stop procreating and consuming above ecological carrying capacity limits when legislators amend the current international law and national constitutional social contract statutes that enable procreation and consumption above ecological carrying capacity limits; to specifically require all the worlds/their nations citizens to procreate and consume below ecological carrying capacity limits.

In the – amended – wording of Dr. Al Bartlett: Living on a planet where cultures are based upon Masonic War is Peace right to breed/consume social contract principles is like buying a ticket on the Titanic; if you're smart you go Capitalist first class; or you can go cheap Communist or Primitivist steerage third class. In all cases, the sinking of the culture from ecological overshoot resource depletion result is the same. But if the social contract gives the people the choice, most people would go fast, flashy and first class.

As reported in Nasa funded [Human \(Predator\) and Nature \(Prey\) Dynamics \(HANDY\) studies](#): Humans who engage in [totalitarian agriculture](#), engage in Predator-Prey Growth and Collapse of Civilization/Empire cycles: Greco-Rome, Minoan, Mycenaean, Sumerians, Akkadian, Assyrian, Babylonian, Achaemenid, Seleucid, Zhou, Han, Tang, Song, Parthian, Sassanid, Umayyad, Abbasid, Mauryan, Gupta, Maya, Hittite, Harrapan and Teotihuacan. Collapses result from (1) Ecological Strain and (2) Economic Stratification and include the disappearance of between 90-99% of the populations (from famine, disease and organized violence resource wars) including their kings, Gods, calendars and other complex political and cultural institutions.

Economic Stratification Collapse occurs due to unequal consumption of resources generating Elites vs Commoners. As Elites become sizable and keep growing, they consume more; their over-exploitation results in collapse of resources to the Commoners; who experience famine and collapse. Elites -- due to their wealth -- do not suffer the detrimental effects of environmental collapse until much later than Commoners, which allows them to continue 'business as usual', despite the impending catastrophe; explaining how historical collapses were allowed to occur by seemingly oblivious elites (eg Roman & Mayan cases).

As clarified by Garrett Hardin in [Tragedy of the Commons](#); in the absence of a social contract that eliminates 'breeding/consumption' cheaters from the genepool; a social contract that provides for no 'elimination from the genepool' consequences for 'breeding / consumption war cheaters; effectively results in other members of the culture being forced to engage in breeding / consumption war cheating; for offence or defence of their resources purposes; which sets in motion a breeding / consumption war ratrace. This reality was observed shortly after the invention of totalitarian agriculture; and the elite of the time decided rightly or wrongly that

their only option was for the elite to **divide and conquer** manage and profit from the 'breeding / consumption war'; which is one of the 'human sacrifice' 'secrets' of 'oroborous mystery phallic worship religions'.

If economists and journalists are sincere about establishing an economic system based upon resource footprint morality; and abolishing the **human factory farming slavery** system; I imagine an Ecology of Peace **William Wilberforce** and **Eric Liddle** would suggest that to free ourselves from **enslavement** we shall need to have the courage to give up our addiction to the **false left and right wing moral supremacist bullshit propaganda** and individual and corporate welfare at the expense of the ecological resource commons that provides us with survival sustenance; and publicly confront the **phallic human sacrifice War is Peace** foundation of our secular or theocratic – capitalist, communist, libertarian, socialist, Christian, Muslim, Catholic, Buddhist, etc – religions; and cooperate with national and international authorities to – hopefully nonviolently – **implement** an **Ecology of Peace** international law social contract that requires all the worlds citizens from all races, classes, religions and cultures to procreate and consume below ecological carrying capacity limits.

Ecological Reality Facts being: (a) Earth is not flat; (b) Earth renewable and non-renewable resources are finite; (c) When humans breed or consume above ecological carrying capacity limits, it results in resource conflict; (d) To sustainably protect and conserve natural resources in accordance to **local and national carrying capacity limits**; and restrict **national and international inter-cultural resource war conflict**; humans must implement an **Ecology of Peace** international law social contract that restricts all the worlds citizens to breed and consume below ecological carrying capacity limits.

Current International Law Right to Breed & Consume:

There are many examples of current international law statutes that directly and indirectly provide citizens with the right to breed and/or consume above ecological carrying capacity limits; and lawyers, prosecutors and Judges who apply them, all while pretending their courts are concerned with ‘truth’ and ‘evidence’; pretending they have fuck all clue why and how those statutes result in food shortages & inflation, cost of living increases, urban sprawl, traffic jams, toxic waste, pollution, peak oil, peak water, peak food, peak population, species extinction, loss of biodiversity, peak resources and climate change; inter-racial, religious and cultural social conflict; psycho-social conflict; not to mention overpopulation and consumption resource depletion and scarcity induced [resource wars](#); which sometimes manifest as genocide and holocausts.

AnthroCorpocentric Jurisprudence’s Innocence for Sale Indulgence Legal Matrix:

“Corporations are a Frankenstein monster which States have created by their corporation laws.” - Supreme Court Justice Louis D. Brandeis, 1916

“Every right must be evaluated in the network of all rights claimed and the environment in which these rights are exercised. If we hold that every right, “natural” or not, must be evaluated in the total system of rights operating in a world that is limited, we must inevitably conclude that no right can be presumed to be absolute, that the effect of each right on the suppliers as well as on the demanders must be determined before we can ascertain the quantity of right that is admissible. From here on out, ours is a limited world. Rights must also be limited. The greater the population, the more limited the per capita supply of all goods; hence the greater must be the limitation on individual rights, including the right to breed. At its heart, this is the political meaning of the population problem.” – Garrett Hardin, Limited World, Limited Rights

Civilized Patriarchy’s Legal Matrix Reality doctrine -- the Inalienable ‘Right to Breed and Consume, but you need a License to Own a Gun, a License to Drive a Car, a License to Practice Law, a television license, a credit license, a license to earn a living, a university exemption license, a license to fish, a license to hunt, a liquor license, a business license, a marriage license, in some U.S. states, five year olds, even need to get a license to run a lemonade stand on their front lawn -- hypocritically referred to as the ‘rule-of-law’ is a legal world of lawyers, politicians and priests, who prefer to negligently ignore, plausibly deny, or socio-psycho-phallicly benefit from the conquer-and-multiply and divide and conquer control over the means of human reproduction and consumption. It is a Matrix reality, of legal, political and religious indulgence salesmen.

It is a legal world, very similar to the Matrix religious world that existed before Martin Luther confronted the religious indulgence salesmen with his Ninety-Five Theses, on the Church of All Saints, on 31 October 1517, thereby initiating the Protestant Reformation.

In the Catholic Church's religious Matrix world, only Catholic Bishops were entitled to be interpreters of the 'word of god'. Only they could decide what God meant, about who was guilty and who was innocent, who would go to hell and who would go to heaven. God did not speak to common people, except via the Catholic Church's bishops.

In Civilized Patriarchy's Legal Matrix world, only those who swear blind obedience to Civilized Patriarchy's Legal Matrix world – lawyers, prosecutors and judges – are deemed to possess the supposed superior intellectual Legal Godlike capabilities, to decipher, decode and interpret the 'word of civilized patriarch gods', hence capable of deciding which of us mere Commons surplus cannon fodder mortals acts of commission, or omission, is 'lawful' or 'unlawful'.

Civilized Patriarchy's Legal Matrix 'AnthroCorpocentric law' is based upon Flat Earth 'jurisprudence', as per the demands of those capable of purchasing Flat Earth legislation indulgences which make their ecologically – breeding/consumption war -- criminal acts, to be deemed as 'legal/lawful' conduct by the Legal Matrix Bishops: lawyers, prosecutors and Judges.

It is a Matrix world of legal indulgence salesmen; who -- 'Contempt in Facie Curiae' -- demand the public's sycophantic submissive obedience; for their supposed superior intellectual Godlike capabilities, to decipher, decode and interpret which of us mere Commons surplus cannon and vote fodder mortals acts of commission, or omission, is 'lawful' or 'unlawful'.

Thieving, Conquering, Murdering and Culling Acts of Un/Lawfulness:

"Military men are just dumb, stupid animals to be used as pawns in foreign policy." - Henry Kissinger; *The Final Days*, by Bob Woodward & Carl Bernstein

Surplus vote fodder citizens may convert to becoming cannon-fodder citizens by joining the military to commit conquering or culling acts of murder and theft, as long as their murder and theft is sanctioned as a lawful conquer, culling or theft order, by one or more groups of left/right conquer-and-multiply legal indulgence salesmen.

In this Matrix Reality legal world, soldiers tasked with the national security conquering and culling responsibilities, of conquering to thief another tribe's resources, and culling population 'useless eaters' and 'oxygen thieves' surplus population excesses; on behalf of the conquering and culling profiteering demands of civilized patriarchy's civilian corporate and political elite; constantly find themselves confronted with the conquer-or-culling "Befehl ist Befehl" Catch 22 dilemma:

To obey, or not to obey, a 'Lebensraum', 'Difaqane', 'Operation Freedumb' and the thousands like them, order to conquer or cull; since a lawful conquer or culling order, by one group of left/right conquer-and-multiply legal indulgence salesmen, can easily be reinterpreted to be an unlawful order, by another group of opposing left/right conquer-and multiply legal indulgence salesmen; presenting a Catch 22 dilemma from which there is no legal escape.

One who refuses a 'lawful' conquering or culling order will still probably be jailed for refusing orders, and one who accepts an 'unlawful order will be jailed for committing unlawful culling or conquering acts.

Who decides, what is, and what is not, a conquering or culling *lawful*, or *unlawful* order?

The 'Inalienable Right to Breed' Matrix Reality conquer-and-multiply indulgence salesmen, with their specious justifications, and nightmare of Legal Matrix reality generated bureaucratic stare-decisis cryptic rules and statutes, of course!

"I don't know what you mean by 'glory,'" Alice said.

Humpty Dumpty smiled contemptuously. "Of course you don't—till I tell you. I meant 'there's a nice knock-down argument for you!'"

"But 'glory' doesn't mean 'a nice knock-down argument'," Alice objected.

"When I use a word," Humpty Dumpty said, in rather a scornful tone, "it means just what I choose it to mean—neither more nor less."

"The question is," said Alice, "whether you can make words mean so many different things."

"The question is," said Humpty Dumpty, "which is to be master—that's all."

-- Through the Looking Glass, by Lewis Carroll

Anthropocentric Master's of 'Relevance' Jurisprudence:

The question in a civilized patriarchy court is only concerned with who is the master of one word: '*relevance*'.

Any question or answer that exposes civilized patriarchy's Legal Matrix system for what it is; a system far more corrupt than the Catholic Church's Indulgences for Sale religious matrix, is simply deemed as 'irrelevant'.

It is 'irrelevant' that legislators, lawyers, courts and judges defy the laws of ecology with a massive 'fuck you', by legislating, interpreting and enforcing Legal Matrix doctrine, that encourages citizens to breed and consume above cultural carrying capacity limits.

It is 'irrelevant' that legislators, lawyers, courts and judges know that legislation which ignores carrying capacity limits results in ecological overshoot, surplus vote-cannon-fodder populations, economic hierarchical inequality, and scarcity induced local, national and international conflict.

It is 'irrelevant' that legislators, lawyers, courts and judges know that legislation which enables ecological overshoot in multi-cultural/ethnic/religious communities, manifests as inter-cultural / ethnic / religious conflict.

It is 'irrelevant' that legislators, lawyers, courts and judges know that inter-cultural / ethnic conflict is a great divide and conquer tool to manipulate the proletariat to perceive other cultural/ethnic proletariat as the source of their own overshoot-scarcity-conflict misery.

It is 'irrelevant' that legislators, lawyers, courts and judges sit in judgement about an accused's case of theft or murder; while consciously ignoring the theft and thievery and

participation in mass murder of the civilized patriarchy corporate elite, who purchased 'Innocence for Sale' Indulgences from legislators to avoid legislation that defines their ecologically criminal acts of billion and trillion dollar thievery and murder as 'unlawful'.

What is relevant?:

It is relevant that civilized patriarchy's penis constitutions human factory farming rights to breed and consume, is to be master —that's all.

Who says so?:

Civilized Patriarchy's ecologically illiterate Legal Matrix Legislator's, lawyers, judges and prosecutors ego-genitals say so!

Totalitarian Agriculture as the source of Taker resource scarcity social-conflict contract problems:

The problems with Taker social contract occurred with the invention of Totalitarian agriculture; which describes the behaviour of humans who violate their original indigenous tribal territory's by choosing to engage in surplus food production (economic growth); resulting in surplus human (population growth).

When any tribe of humans overbred and/or overconsume the natural resources in their perceived tribal territory; they travel beyond their tribal territory to go and find resources they have over-consumed and degraded. When such a tribe enters another tribes territory, then conflict occurs (from economic, political to physical, an organized violence warfare). To limit inter-tribal territorial resource acquisition conflict, all tribes must agree to limit procreation and consumption to their tribal territory ecological carrying capacity limits.

Simplistically the history of war can be summed up as: Every single battle between two groups of racial, religious, ethnic, or ideological warriors, engaged in organized violence resource thieving or defence, since the advent of [totalitarian agriculture](#), was a result of one or both of those tribes having overbred and/or overconsumed, and engaging in resource thieving into another tribes territory.

Since the beginning of humans (whatever you believe that beginning to be) humans lived in nomadic hunter gatherer tribes, like the Bushmen, Aborigine's, etc. Male duties were to hunt and protect the tribe. Women's duties were to forage and nurture the young. Both men and women contributed to the tribe's economic resources and duties, hence power was shared reasonably equally. Tribes were concerned about not overbreeding; since such overbreeding resulted in the resources in a territory being depleted quicker, and less resources for the rest of the tribe; requiring them to move to new territories. After three million years of humans living like hunter gatherers, it is estimated that the human population at the beginning of the Neolithic period was around ten million.

Then things changed very quickly for the tribes who invented Totalitarian agriculture. Women invented agriculture, resulting from their close association and experimentation with seeds and plants, in their role as foragers. This change occurred because some tribes started practicing a particular form of 'surplus agriculture' (hereinafter referred to as 'totalitarian

agriculture') where farmers grew large surpluses of stored food. The consolidation of agriculture results in the centralization of political power: cities & civilization. Before the discovery of oil and coal, the practice of totalitarian agriculture farming was far more labour intensive than hunting and subsistence farming; so men took over agriculture; and women were now relegated to being brood sows, to breed economic and cannon fodder: children to work in the fields or be soldiers. Surplus food meant that some members of the tribe could now work in other specialized fields: soldiers, clerks, etc; and also that the tribes could grow their tribes population. World population doubled in three thousand years; and again in only two thousand years. It jumped from ten million to fifty million—probably eighty percent of them being practitioners of totalitarian agriculture. It was getting crowded.

Beginning of War is Peace War resulting from overbreeding and overconsuming: In all of three million years, humans had never been crowded anywhere. But now the people of practicing totalitarian agriculture were learning what it means to be crowded. Overworked, overgrazed land was becoming less and less productive. There were more people, and they were competing for dwindling resources; and people now began to organize their tribes into forms of standing armies to fight for land or resources. The tribes first war-making machinery: warlords—kings, princes, emperors and their nation states formed for the purpose of armed defense and aggression. "It's during this period that we see the standing army forged as the monarch's sword of power. Without a standing army, a king is just a windbag in fancy clothes. But with a standing army, a king can impose his will on his enemies and engrave his name in history—and absolutely the only names we have from this era are the names of conquering kings. No scientists, no philosophers, no historians, no prophets, just conquerors. For the first time in human history, the important people are the people with armies."

Evolution of War is Peace War: Advancement and acquisition of Human and Military Technology and Capital vs Breeding of CannonFodder: In a battle between two armies with the same level of military skill and technology; generally the bigger army wins. Many of history's military conquerors have relied on simply growing cannon fodder to slaughter on the battlefields to win their battles or wars. Some military conquerors focussed on improving their soldiers skills (psychological, physical, intellectual, spiritual, etc), technology (better armor, better swords, better chariots, better bows and arrows, better scaling machines, better rams, better artillery, better guns, better tanks, better planes, better bombs, better rockets, better nerve gas, better germs, better chemicals); and legal moral supremacist 'innocence for sale' indulgence interpretations psychological warfare doctrine. Many times small armies with greater technological equipment and/or military tactical or strategic skills won: There are many examples, but two are Battle of Blood River (guns), conquest of North and South America ([guns, germs & steel](#)).

WiP Resource Conflict: Initially economic, then political, and finally military organized conflict: Centuries of conflict over resources generated an international law social contract founded upon Masonic phallic force (rule of force international treaties); that rewarded those who engage in [seething energies of lucifer](#) breeding and consumption wars; which bribe their tribes members to believe it is their 'inalienable [freedumb slavery] right' to breed and consume above carrying capacity limits; while denying personal responsibility for the human factory farming organized violence conquer and culling racism, sexism, nationalism, socialism, capitalism, nazism, islamism, zionism, corporatism, stalinism, [human sacrifice culling](#), etc consequences; as people are motivated beyond retardation (motarded) to choose to join one or other ideological, religious, racial or cultural tribe to engage in resource war thieving to accumulate more resources to grow their tribe to enable it to protect itself from another tribes organized violence resource war thieving.

Totalitarian Agriculture's Luciferian Evil Human Sacrifice Harvest Religions:

“When The Mason learns that the Key to the warrior on the block is the proper application of the dynamo of living power, he has learned the Mystery of his Craft. The seething energies of Lucifer are in his hands and before he may step onward and upward, he must prove his ability to properly apply this energy.” - Manly Palmer Hall,
Illustrious: the Lost Keys of Freemasonry

"in this case the defendants are not simply accused of planning or directing wholesale killings through channels. They are not charged with sitting in an office hundreds and thousands of miles away from the slaughter. It is asserted with particularity that these men were in the field actively superintending, controlling, directing, and taking an active part in the bloody harvest." - Nuremberg Military Tribunal, United States of America vs. Otto Ohlendorf, et. al. ("Einsatzgruppen trial"), Judgment.

All civilized religions — from Christianity, to Gnosticism, etc — were ‘created’ in the minds of man to comprehend the concept of ‘evil’ (aka organized violence), subsequent to man’s invention of agriculture, approximately 10,000 years ago; and where such agriculture created food surpluses, resulting in population surpluses, and expansion of their territory resulting in population pressure clashes with other tribes territories, resource war conflict.

Extended misery resulting from direct and psychic existential conflict resulted in man’s attempt to understand so-called ‘evil’; or put more simply: the organized resource thieving direct conflict (rape, murder, slavery, etc) resulting from population pressures and escalating relations with fellow humans based upon the absence of consent, i.e. extended periods of psychic and physical violence and coercion.

If there are two or ten people living on an island with enough food and other resources and space, for one hundred people; there is no need to coerce another for food or resources freely and abundantly available. In the absence of a resource scarcity conflict mindset, and plenty of space, tribal relations are more conducive to cooperation and sharing. Living in the moment. There is no need for an external God in the sky to explain ‘evil’; there is only a consciousness to appreciate the source of resource abundance, as the ‘source of life’; and to live in harmony with such source: nature. Violence is limited to food chain violence experienced by all species; namely hunting and being hunted by another predator for immediate food. [See also: Law of Limited Competition]

If the tribe introduces agriculture, which results in an agricultural surplus and uses such agricultural surplus to justify greater population; then as the population increases, so the population pressures increase. There is less space to run away from someone who may be temporarily angry, or wanting something another is not willing to provide in that moment. The existence of ‘evil’ (organized violence) is plausibly directly proportional to the resource war conflict, resulting from the tribe’s violation of carrying capacity limits; and/or coming into contact with another tribe’s territorial expansion as a result of their violation of carrying capacity limits. In attempting to understand the existential meaning of this symptom of ‘evil’ resulting from violation of carrying capacity limits resource war conflict, man created religions...

The invention of agriculture and agricultural surpluses, and subsequent organized violence of civilization are the biblical story of Adam and Eve’s loss of living in carrying capacity harmony with the natural world resource abundant paradise, and Cain’s choice to be a farmer.

Others saw opportunities for socio-political status benefits from exploiting the reality of organized violence (evil), and suppressed this conscious reality of their intentions by invoking various phallic 'right' justifications for their 'right' to engage in organized violence (evil).

The Mason's 'seething energies of lucifer' are the psychological warfare art of manipulating and coercing men and women to overbreed and overconsume, to thereby aggravate resource war conflict, and the ability to divide and conquer people's, for the socio-political profit of the 'warrior', to 'step onward and upward'; as he 'proves his human sacrifice ability' to apply his breeding war and consumption war energies. Put differently, the 'seething energies of lucifer' are no less than the phallic justification for profiting from aggravating and perpetuating deliberate organized violence, without the consent of the recipients of the violence.

Totalitarian Agriculture WiP Tower of Babel Empires that violently collapsed: Humans who engage in totalitarian agriculture, engage in Predator-Prey Growth and Collapse of Civilization/Empire cycles: Greco-Rome, Minoan, Mycenaean, Sumerians, Akkadian, Assyrian, Babylonian, Achaemenid, Seleucid, Zhou, Han, Tang, Song, Parthian, Sassanid, Umayyad, Abbasid, Mauryan, Gupta, Maya, Hittite, Harrapan and Teotihuacan. Collapses result from (1) Ecological Strain due to procreation and consumption above ecological carrying capacity limits; and (2) Economic Stratification; and have included the disappearance of between 90-99% of their populations (from famine, disease and organized violence resource wars) including their kings, Gods, calendars and other complex political and cultural institutions.

I imagine that is because their leadership is very much aware that that pseudo-environmentalists are engaged in as much coverup fraud as the fossil fuel industry; with their (i) 'green industrial economy' utopia bullshit; (ii) refusal to address third world procreation factor in carbon footprint measurement issues.

Green Industrial Economy Fraud:

Re: “As most social scientists now realise, the overwhelming question of international justice can no longer be evaded or even postponed”.

The rest of this correspondence shall provide an Ecology of Peace justice response to the issue of ‘international justice’.

“Climate Change will become a defense and security issue, for four major reasons. There will be water wars, there will be oil wars, there will be massive migration on a scale the world has never seen, and there will be massive food insecurity. The two things of importance to the United States and UK will be issues of migration, which we already have problems with in Europe and the US. It will get much much more extreme. .. So much of our food is derived from Africa and Central and South America, if that starts to fail .. there could be rioting. There is an expression which is called nine meals from anarchy.” – Rosie Boycott, Former Editor of the Independent; [Climate Change and National Security](#).

Simplify Suggestion:

“If you can't explain it simply, you don't understand it well enough.” - Albert Einstein

1. As climate change scientists and activists may or may not be aware: the ‘right to breed and consume with total disregard for ecological carrying capacity limits’ international law social contract; cause of overpopulation and overconsumption; has many consequences: climate change; psych-social resource conflict conformity pressures aka political correctness, food shortages, food inflation, cost of living increases, urban sprawl, traffic jams, toxic waste, pollution, peak oil, peak water, peak food, peak population, species extinction, loss of biodiversity, peak resources, income inequality; corporate concentration of wealth; Corpotocracy; nation states standing army or dissident guerrilla army ‘terrorism’ resource war military aggression, etc.
2. Overconsumption and overpopulation are a direct consequence of humans procreating and consuming above ecological carrying capacity limits.
3. Humans procreate and consume above ecological carrying capacity limits because the current international law social contract; provides the worlds nations citizens with the ‘right to breed and consume with total disregard for ecological carrying capacity limits’.
4. Humans will stop procreating and consuming above ecological carrying capacity limits when legislators amend the international law social contract; to require all the worlds citizens to procreate and consume below ecological carrying capacity limits.

Put simply: Our choices are between Ecology of Peace humane, orderly and relatively non-violent deindustrialization and depopulation; and Masonic War is Peace extremely violent Mad Max race wars, religious wars, four horses of the apocalypse Armageddon deindustrialization and depopulation.

Ecology of Peace New World Order social contract options:

EoP ICC Private Prosecution:

Ecology of Peace Applicants have notified ICC Judges that they are currently searching for Assistance of Counsel [PDF] to file the [EoP complaint to ICC](#); to remove the ‘right to breed and consume with total disregard for ecological carrying capacity limits’; clauses of the current international law social contract; and replace them with clauses requiring all the worlds citizens of all races, classes and religions to procreate and consume below ecological carrying capacity limits.

As noted in correspondence to ICC Judges [PDF]:

The purpose of the EoP private prosecution complaint to the International Criminal Court – if or when filed – shall be to implement an Ecology of Peace international law social contract; that requires all the world’s citizens to procreate and consume below ecological carrying capacity limits. The complaint shall charge the breeding and/or consumption scarcity combatants with ‘Crimes of Aggression Acts of War’ for their breeding/consuming above ecological carrying capacity limits; and shall require the respondents to cooperate; to nonviolently de-industrialize and reduce consumption and procreation to ecological carrying capacity limits; through specific actions requested of them. Put simply in terms of ICC Prosecutor Luis Moreno-Ocampos [red/green light international law analogy](#); individuals breeding and/or consuming above ecological carrying capacity limits shall be guilty of procreation/consumption crimes of aggression acts of war; i.e. have crossed the red light.

All documentation including the most recent draft of the complaint: *EoP PoW's –v– Nobel Committee & Peace Laureates et al* [PDF]; can be found at [EoP ICC complaint](#).

As noted in Request for Assistance of Counsel to Philippino Environmentalist lawyer: Tony Oposa [PDF]; if EoP Applicants cannot find any civilian attorneys to support their EoP ICC complaint; EoP Axis authorities may choose to implement the [military necessity](#) mutual coercion last resort option of the [Ecology of Peace NWO social contract options](#).

If EoP Axis authorities – Leaders of Russia, China, USA & NATO – and/or IL Coercion authorities choose to implement the [EoP Axis Military Necessity Evacuation](#) – as detailed in *26 September 2015 Military Necessity Evacuation Lotto Pool Notice to Nation State Supreme Court Judges & Attorney Generals of: Bahrain, Brazil; Brunei, Burundi, China, Germany, India, Japan, Kuwait, Luxembourg, Mali, Malta, Mexico, Monaco, Netherlands, Niger, Philippines, Qatar, Singapore, Somalia, South Korea, Uganda, United Kingdom, United States of America, Vatican City* [PDF]; Proof of Service [PDF] – the first two countries on the EoP Axis Military Necessity Evacuation lotto are: Phillipines [PDF] and India [PDF].

Lotto Military Necessity Evacuation implementation shall result in half of India and Phillipines – or subsequent lotto draw nations – scarcity combatants and breeding/consumption war extremist’s – whom Masonic War is Peace legislators, lawyers and judges formerly provided with [Breeding/Consumption Innocence for sale Indulgences](#) – being psychotronically humanely killed en masse; unless their nation, city or the citizen has signed EoP Axis Oaths and provided such oaths to EoP Axis authorities as documented at [EoP Supporters](#).

An EoP Military Necessity Evacuation:

- (a) Scarcity combatant is any citizen who is a member of the following professions: (i) Law: Judges, Prosecutors & Lawyers; (ii) Mental Health: Psychologists & Psychiatrists; (iii)

Media: Print, TV or Radio: Editors, Producers & Journalists; (iv) Religious & Non Profit: Officials and Employees of any religious worship or charity organization with State non-profit status.

- (b) Breeding / consumption war extremist is any adult individual over the age of 18 who has co-procreated more than 3 children who survived beyond the age of 5; and/or who possesses capital assets amounting to more than US \$ 2.55 million.

Psychotronic Technology:

There are neurological biological similarities between waterboarding and psychotronic manipulation of brain messages to the body. In waterboarding the interrogator physically restricts the body being tortured from receiving messages from the brain for a period of time ranging from 10 to 40 seconds; by restricting the brains access to oxygen; by covering the beings nose with water. In psychotronic manipulation of brain messages to the body; the brain EMF frequencies are manipulated by shutting them down for a period of time ranging from 10 to 40 seconds; by psychotronically restricting the brain from sending 'continue doing your work to allow the body to survive' messages to the necessary body parts.

In [Covert Operations of the NSA](#) John St Clair Akwei; a former NSA employee describes how the NSA can psychotronically manipulate the thoughts and bodily functions of any individual on the planet. Put differently; the NSA or any other nations intelligence agencies; such as Britain's MI6, or Russia's FSB/KGB; or Israel's Mossad; can remotely manipulate the thoughts of any one or more persons; and/or kill any one or more persons; by psychotronically shutting off the brain's signals to the heart; lungs, etc to 'survive and continue living'. They can also remotely psychotronically manipulate internal organs in the body; such as induce a heart attack or stroke, pull a tendon or muscle; fill the lungs with water to induce pneumonia; and aggravate an already inflamed intestine to activate an gastrointestinal bleeding attack. EoP or WiP Deindustrialization and Depopulation:

If humane psychotronic deindustrialization and depopulation is implemented internationally as per [EoP Cop21 Simple Root Cause Problem Solving Recommendation \[PDF\]](#) submitted to UNFCCC & Cop 21; and/or [EoP complaint to ICC](#); it would have greater positive effects on re-forestation, biodiversity and climate change than the extremely violent depopulation implemented by Genghis Khan the Green; which only occurred in Eurasia; but resulted in massive reforestation and the plummeting of carbon levels.

----- Excerpt: Carnegie Genghis Khan study-----

Genghis Khan has been branded the greenest invader in history - after his murderous conquests killed so many people that huge swathes of cultivated land returned to forest. The Mongol leader, who established a vast empire between the 13th and 14th centuries, helped remove nearly 700 million tons of carbon from the atmosphere, claims a new study. The deaths of 40 million people meant that large areas of cultivated land grew thick once again with trees, which

absorb carbon dioxide from the atmosphere. And, although his methods may be difficult for environmentalists to accept, ecologists believe it may be the first ever case of successful manmade global cooling.

Genghis Khan and his Mongol hordes had an impact on the global carbon cycle as big as today's annual demand for gasoline. The Black Death, on the other hand, came and went too quickly for it to cause much of a blip in the global carbon budget. Dwarfing both of these events, however, has been the historical trend towards increasing deforestation, which over centuries has released vast amounts of carbon dioxide into the atmosphere, as crop and pasture lands expanded to feed growing human populations. Even Genghis Kahn couldn't stop it for long.

"It's a common misconception that the human impact on climate began with the large-scale burning of coal and oil in the industrial era," says Julia Pongratz of the Carnegie Institution's Department of Global Ecology, lead author of a new study on the impact of historical events on global climate published in the January 20, 2011, online issue of *The Holocene*. "Actually, humans started to influence the environment thousands of years ago by changing the vegetation cover of the Earth's landscapes when we cleared forests for agriculture."

Clearing forests releases carbon dioxide into the atmosphere when the trees and other vegetation are burned or when they decay. The rise in atmospheric carbon dioxide resulting from deforestation is recognizable in ice cores from Greenland and Antarctica before the fossil-fuel era.

But human history has had its ups and downs. During high-mortality events, such as wars and plagues, large areas of croplands and pastures have been abandoned and forests have re-grown, absorbing carbon dioxide from the atmosphere.

Pongratz decided to see how much effect these events could have had on the overall trend of rising carbon dioxide levels. Working with colleagues at the Max Planck Institute for Meteorology in Germany and with global ecologist Ken Caldeira at Carnegie, she compiled a detailed reconstruction of global land cover over the time period from 800 AD to present and used a global climate-carbon cycle model to track the impact of land use changes on global climate. Pongratz was particularly interested in four major events in which large regions were depopulated: the Mongol invasions in Asia (1200-1380), the Black Death in Europe (1347-1400), the conquest of the Americas (1519-1700), and the Fall of the Ming Dynasty in China (1600-1650).

"We found that during the short events such as the Black Death and the Ming Dynasty collapse, the forest re-growth wasn't enough to overcome the emissions from decaying material in the soil," says Pongratz. "But during the longer-lasting ones like the Mongol invasion and the conquest of the Americas there was enough time for the forests to re-grow and absorb significant amounts of carbon."

The global impact of forest re-growth in even the long-lasting events was diminished by the continued clearing of forests elsewhere in the world. But in the case of the Mongol invasions, which had the biggest impact of the four events studied, re-growth on depopulated lands stockpiled nearly 700 million tons of carbon absorbed from the atmosphere. This is equivalent to the world's total annual demand for gasoline today.

Pongratz points out the relevance of the study to current climate issues. "Today about a quarter of the net primary production on the Earth's land surface is used by humans in some way,

mostly through agriculture,” she says. “So there is a large potential for our land-use choices to alter the global carbon cycle. In the past we have had a substantial impact on global climate and the carbon cycle, but it was all unintentional. Based on the knowledge we have gained from the past, we are now in a position to make land-use decisions that will diminish our impact on climate and the carbon cycle. We cannot ignore the knowledge we have gained.”
