Summary: EoP Axis Military Necessity Lotto Evacuation:

EoP Axis Military Necessity Evacuation Lotto pool consists of nation states starting with 25 nations with highest scarcity combatant footprints. Each lotto draw will select two nation states. The two lotto Nation states shall have half of selected Scarcity Combatants – Lawyers, Mental Health, Organized Religion, Charity Non-profits, Media and Breeding/Capital War extremists – evacuated; excluding scarcity combatants who have signed EoP Axis Oaths. Evacuated means humanely eliminated by means of psychotronic technology that terminates the functioning of their bodily organs; their bodies are to be disposed of in silo's for composting. Cities with more than 25,500 residents may exempt themselves from lotto evacuation by signing City EoP Axis Oath. Nations may exempt themselves from the lotto pool by (a) their National Government providing EoP Axis Officials with their written statement of unconditional cooperation to implement an Ecology of Peace international law social contract; and (b) their Attorney General / Director of Public Prosecution providing the

City / Individual EoP Axis oaths to be submitted to 'EoP Axis of Mutual Coercion' officials from: USA: Pentagon; Russia: Kremlin; EU: NATO; China: People's Army; must be received and verified by the Acting Clerk 5 days prior to the next scheduled lotto drawing; in order for nation / city / individuals to be exempted from lotto evacuation pool.

The EoP Military Necessity Mutual Coercion ICC Option Lotto Evacuation shall continue until (a) all nations national leaders have provided 'EoP Axis of Mutual Coercion' authorities with their Nations verified EoP Axis oath commitment of unconditional cooperation; and (b) all nations chief prosecutorial authority: attorney general / public prosecutors have filed their written consent with the International

Summary: Tragedy of the Commons: Mutual Coercion, Mutually Agreed Upon:

“Every right must be evaluated in the network of all rights claimed and the environment in which these rights are exercised. If we hold that every right, “natural” or not, must be evaluated in the total system of rights operating in a world that is limited, we must inevitably conclude that no right can be presumed to be absolute, that the effect of each right on the suppliers as well as on the demanders must be determined before we can ascertain the quantity of right that is admissible. From here on out, ours is a limited world. Rights must also be limited. The greater the population, the more limited the per capita supply of all goods; hence the greater must be the limitation on individual rights, including the right to breed. At its heart, this is the political meaning of the population problem.”
– Garret Hardin: *Limited World, Limited Rights*.

The *Tragedy of the Commons* is an ecological concept that refers to the depletion of a shared resource by individuals, acting independently and rationally according to each one's self-interest, despite their understanding that depleting the common resource is contrary to their long-term best interests. Ecologist Garrett Hardin famously explored this social dilemma in “The Tragedy of the Commons”.²⁰ Hardin concluded that in the absence of restricting the consequences of the ‘tragedy of the commons’, by reducing the rights to consumption and procreation, to below carrying capacity limits, they would eventually be restricted by nuclear war.

Social Trap is a term used by psychologists to describe a situation in which a group of people act to obtain short-term individual gains, which in the long run leads to a loss for the group as a whole; such as for example overfishing, energy "brownout" and "blackout" power outages during periods of extreme temperatures, overgrazing on the Sahelian Desert, and the destruction of the rainforest by logging interests and agriculture. Social fence refers to a short-term avoidance behavior by individuals that leads to a long-term loss to the entire group.

For a culture to avoid the Tragedy of the Commons consequences, they must establish a system whereby the individuals who choose to cheat to exploit the commons (in Ishmael language: the ‘takers’; in EoP language: ‘scarcity combatants’) by breeding and/or consuming above ecological carrying capacity limits, are easily exposed, and given the opportunity to follow their social trap behaviour, by removing their genes from the genepool. In the absence of eliminating the cheater takers from the genepool; the overbreeding social trap behaviour of the ‘takers’, will overpopulate the ‘leavers’

¹⁹ <http://tygae.weebly.com/eop-icc-complaint.html>

²⁰ Hardin, G (1968/12/13)

(living in harmony with the commons), eventually forcing the ‘leavers’ to either become takers to survive; or to over consume natural capital to convert to economic and military capital for the purpose of protecting themselves and property from the overbreeding cheaters.

Hardin concluded that in the absence of restricting the over breeding and consuming consequences of the ‘tragedy of the commons’, by restricting citizens to breeding and consuming below carrying capacity limits, those behaviours would eventually be restricted by nuclear war.

Cities: → City administrators must reduce their city populations to a maximum of 25,500 residents. Their cities must be separated from the next city by a green corridor of minimum 5 miles; between itself and neighbouring ‘city’ to be considered a second ‘separate city’ for the purpose of ‘resident counting’; and the green corridor should be 25 miles from any third city.

Scarcity Combatants: → Law: Judges, Prosecutors & Lawyers; Mental Health: Psychologists & Psychiatrists; Media: Print, TV or Radio: Editors, Producers & Journalists; Religious & Non Profit: Officials and Employees of any religious worship or charity organization with State non-profit status.

Breeding / consumption war extremists: → Any adult individual over the age of 18 who qualifies as an extremist Scarcity Combatant: i.e. Breeding: any individual who has co-procreated more than 3 children who survived beyond the age of 5; Capital/Consumption: any individual whose capital assets amount to more than US \$ 2.55 million.

EoP Axis of Mutual Coercion' authorities, with their cities legal objection arguments and evidence; objecting to the implementation of an Ecology of Peace international law social contract for humane and orderly depopulation and deindustrialization.

Scarcity Combatants -- Lawyers, Mental Health, Organized Religion & Charity Non-profits | Media | and Breeding/Consumption War Extremists – are to provide their city administration officials and Acting Clerk with their Individual EoP Axis Oath to conditionally cooperate to implement an Ecology of Peace international law social contract; or (b) the date by when they would file their legal objection; objecting to the implementation of an Ecology of Peace international law social contract for humane and orderly depopulation and deindustrialization.

The professions of Lawyers, Mental Health, Organized Religion & Charity Non-profits and Media were selected because of their role as professionals allegedly considered to be 'social conflict' problem solving leaders; who have clearly failed to educate their nation's citizens about Ecology of Peace reality facts.

City administrators and Scarcity Combatants decision-making:

“Order demands violence. A rule not ultimately backed by the threat of violence is merely a suggestion. States rely on laws enforced by men ready to do violence against lawbreakers. [...] Without action, words are just words. Without violence, laws are just words. [...] Violence isn't the only answer, but it is the final answer. One can make moral arguments and ethical arguments and appeals to reason, emotion, aesthetics, and compassion. People are certainly moved by these arguments, and when sufficiently persuaded — providing of course that they are not excessively inconvenienced — people often choose to moderate or change their behaviors. However,

“So when President Bush declared in Tuesday's State of the Union address that "America is addicted to oil" and insisted the United States "break this addiction," Washington was thrown into one of its occasional paroxysms of confusion. Did the President mean it? What did these strong words imply? Why was a Texas oil man urging Americans to "move beyond a petroleum-based economy"? For more than 30 years, Richard Nixon's trip to China has been the standard for bold Presidential action that seizes the initiative, surprising allies and opponents alike with a visionary change in direction. It's too early to say whether President Bush's focus on America's oil addiction meets that standard. (As Tom Friedman quipped in the New York Times, it "was more like Nixon goes to New Mexico.") Will EoP Axis Officials authorize the use HAARP technology on a national city wide scale?:

“The composition of the Greens seems to be the same as that of the population in general — mainly pieces of drifting wood, people who never think.” – Finnish anti-civilization deep ecologist [Pentti Linkola](#)⁷⁵

“Civilization feels like death to me” – [Tim Cope](#)⁷⁶ on Rusty, one of his Mongolian horses at Blue Lake near the 3000-m Kharkhiraa pass in western Mongolia, at the beginning of the Altai Mountains; on his Genghis Khan footsteps journey across the Eurasian steppe.

I personally don't think EoP Axis Officials would hesitate to evacuate more than a few individuals at a time; to the extent of an entire city or cities; particularly if they had made significant efforts to provide the individuals in the targeted cities with sincere compassionate buck stops here information opportunities to cooperate with them to nonviolently implement an Ecology of Peace international law social contract.

Once half of two nations scarcity combatants have been evacuated; other nations can hardly deny EoP Axis officials are serious about the military necessity of implementing an Ecology of Peace international law social contract. Whether they shall choose to nonviolently cooperate at that time, remains to be seen.

Conclusion:

Respondent nations of Bahrain, Brazil; Brunei, Burundi, China, Germany, India, Japan, Kuwait, Luxembourg, Mali, Malta, Mexico, Monaco, Netherlands, Niger, Philippines, Qatar, Singapore, Somalia, South Korea, Uganda, United Kingdom, United States of America and Vatican City are the first 25 scarcity combatant nation states to be added to the EoP Axis Military Necessity Evacuation Lotto pool; who are respectively the top five countries for [nominal GDP](#)⁷⁷: United States, China, Japan, Germany, United Kingdom, [GDP per capita](#)⁷⁸: Qatar,
