If you are unaware; I am a member of an Ecology of Peace culture. You are a member of one or more racial, religious our class subcultures of the larger culture; EoP refers to as the Masonic War is Peace culture.

Ecology of Peace culture is negotiating with Masonic War is Peace culture leaders and their followers to replace the Masonic War is Peace 'right to breed and consume with total disregard for ecological carrying capacity limits clauses of the Masonic War is Peace international law social contract; with an Ecology of Peace international law social contract; that will require all the worlds citizens to procreate and consume below ecological carrying capacity limits; or be removed from the planetary genepool.

### ***Succinct Summary of Private Prosecution Complaint:***

On behalf of the EoP Applicants I have been preparing documentation for an ICC private prosecution in terms of Rendulic Rule Military Necessity doctrine; CA, UK, US & RSA Common Law Private Prosecution doctrine; Rome Statute: Art.5, 6, 7, 8 & 15; ICC Code of Judicial Ethics: Art 4, 5(1), 7 & 11. Charges: Crimes of Aggression Acts of War.

The Ecology of Peace culture's definition of 'crimes of aggression acts of war' is as follows: "Any individual who is found guilty of advocating on behalf of, legislating, enforcing, or obeying any -- cultural, religious, common, statutory, constitutional, or international -- 'scarcity combatant' social contract; which enables or advocates on behalf of human procreation, consumption or production of resources that transgress ecological carrying capacity limits, is guilty of the 'crime of aggression act of war'."

*Carrying Capacity Sustainability: I=PAT Equation:*

For activities to be genuinely sustainable it must be possible for them to continue indefinitely. The impact of humanity on the environment and the demands that people place on the resources available on the planet can be summarized by what is known as the Ehrlich or IPAT equation,  $I=PAT$ . I = impact on the environment or demand for resources, P = population size, A = affluence and T = technology. The two most important conclusions deriving from this IPAT footprint relationship are that: (i) the Earth can support only a limited number of people, at a certain level of affluence, in a sustainable manner; and (ii) Population and Consumption must be reduced to below carrying capacity.

An individual's IPAT footprint is a result of: (A) Consumption Footprint multiplied by (B) Procreation Factor.

**Consumption Footprint:** Consumption footprint calculators are based upon [Global Footprint Application Standards](#), and calculate an individual's consumption footprint based upon various questions about their consumption lifestyle's; and provide a final consumption footprint in global hectares which is the individual's 'consumption footprint'; i.e. the amount of global productive land required for the production of products the individual consumes. Consumption Footprint calculators can be found at among others: [Global Footprint Network](#); [Earth Day](#); [Center for Sustainable Economy](#); [EcoCampus](#).

Global Footprint concepts were developed by among others: Dr. Mathis Wackernagel; Dr. William Rees; Dr. Herman Daly and the Global Footprint Network Standards Committee is one of two committees overseeing scientific review procedures and standards for Footprint calculations.

**Procreation Factor:** According to the research of [Paul Murtaugh](#): A parent increases their consumption footprint by a factor of 20 for every child procreated.

**Carrying Capacity aka Biocapacity Limits:** "The maximum number of individuals that can be supported sustainably by a given environment is known as its 'carrying capacity'. Worldwide the total amount of biologically productive land and sea amounts to 12 billion global hectares (gha); or 1.8 gha each if divided by 6.7 billion each. Guerrilla Laws are drawn up in accordance with the proactive conservation policies of Bhutan, who set aside 40% of their biologically productive to be returned to its natural state, for other species and wildlife conservation purposes; then that means that the total amount of biologically productive carrying capacity land available to humans is 60% of 12 billion; which amounts to 7.2 billion gha total; or 60% of 1.8 gha, which is 1 gha each.

Population factor is relevant, because the more humans there are, the less biologically productive land there is for everyone else.

For example:

**Biocapacity limits of 6.7, 3.5, 1 Billion, 500, 250 & 100 Million humans:** 7.2 billion global hectares of biologically productive land and water divided by (a) 6.7 billion humans, equals: 1.07 gha each; (b) 3.5 billion equals 2.05 gha each; (c) 1 billion equals 7.2 gha each; (d) 500 million equals 14.4 gha each; (e) 250 million equals 28.8 gha; (f) 100 million equals 72 gha each.

Excerpts: [Mbeki Gallagher SAHRC Conf on Racism speech](#):

“The fact that we meet here today to discuss, among others, the issue of racism, and therefore national reconciliation and nation building, constitutes a justifiable acknowledgement that we have still not accomplished the objective stated in our Constitution of building a new South Africa based on the values of non-racialism and non-sexism.

[..] Rather this was prompted by the recent extremely reprehensible comments by one Penny Sparrow about Africans being “monkeys”, whom she said, referring to the Durban beaches, brought “huge dirt and troubles and discomfort to others...From now I shall address the blacks of South Africa as monkeys...”

[..] During the 2000 State of the Nation Address I quoted a comment which had been made by an engineer who was working in one of our companies, and had been unearthed by FAWU, the Food and Allied Workers Union.

The engineer wrote: "I would like to summarise what the Kaffirs have done to stuff up this country since they came into power...If a white buys a house, he pays transfer duties. If a kaffir buys a house it is free of duties because he was 'previously disadvantaged'...More than 20% of the GDP is embezzled by the kaffir politicians and corrupt civil servants...The UIF and state pension funds have been embezzled...Our girlfriends/wives are in constant threat of being brutally raped by some AIDS infested Kaffir (or gang of Kaffirs)...Everyday someone you know is either robbed, assaulted, hijacked or murdered...Half these black bastards have bought their (drivers) licences from corrupt traffic cops...AND AND AND AND AND...All I am saying is that AIDS isn't working fast enough!!!"

\* ~~~~~ \*

Excerpts: [CCT 06-11: Alien on Pale Blue Dot v SA National Editors Forum et al](#):

The title of the writ -- *Habeus Mentem* - is borrowed from Aldous Huxley's *A Brave New World Revisited*; where he describes the insidious conspiracy to manipulate the masses by propaganda and lies, so as to make them controllable under the “steadily increasing pressures of over-population and of the over-organization imposed by growing numbers and advancing technology”

It is perfectly possible for a man to be out of prison, and yet not free -- to be under no physical constraint and yet to be a psychological captive, compelled to think, feel and act as the representatives of the national State, or of some private interest within the nation, want him to think, feel and act. There will never be such a thing as a writ of *habeas mentem*; for no sheriff or jailer can bring an illegally imprisoned mind into court, and no person whose mind had been made captive by the methods outlined in earlier articles would be in a position to complain of his captivity. The nature of psychological compulsion is such that those who act under constraint remain under the impression that they are acting on their own initiative. The victim of mind-manipulation does not know that he is a victim. To him, the walls of his prison are invisible, and he believes himself to be free. That he is not free is apparent only to other people. His servitude is strictly objective.

**Radical Honoursty SA definitions of the word ‘Kaffir’, relevant to this matter:**

**[i] ‘Kaffir Behaviour’: Cultural Beliefs and Procreation Behaviour Definition:**

Individuals who either independently or as a result of their cultural value systems, are incapable of, or unwilling to, practice sexual restraint and procreation responsibility; who consequently breed cockroach-prolifically without personal financial or psychological responsibility to, or emotional concern for, their offspring; and/or who abuse women and children as sexual or economic slaves procreated for such purpose; and/or whose cultural ideal of manhood endorses non-consensual sex (rape) as their sexual slavery entitlement, etc.

**[ii] ‘Kaffir Etymology’: Original Etymological Definition for ‘Kaffir’:**

The word kāfir is the active participle of the Semitic root K-F-R “to cover”. As a pre-Islamic term it described farmers burying seeds in the ground, covering them with soil while planting; as they till the earth and “cover up” the seeds; which is why earth tillers are referred to as “Kuffar.” Thus, the word kāfir implies the meaning “a person who hides or covers”; To conceal, deny, hide or cover the truth.

**[iii] ‘Kaffir Legislation’ = Inalienable Right to Breed’ Poverty, Misery and War legislation; pretending it advocates for ‘peace’ and ‘human rights’.**

Kaffir Law/Legislation provides citizens with the Inalienable ‘Right to Breed’, but demands that Citizens need a Licence to Own a Gun, a Licence to Drive a Car, a Licence to Practice Law, a television licence, a credit licence, a licence to earn a living, a university exemption licence, a licence to fish, a licence to hunt, a liquor licence, a business licence, a marriage licence, etc, etc.

Kaffir Legislation covers up that an ‘Inalienable Right to Breed/laissez-faire birth control policy + No Social Welfare policies or practices provides for an equilibrium carrying capacity; whereas Inalienable Right to Breed/laissez-faire birth control within a welfare state, results in Runaway Growth, and ultimately greater misery, poverty and war.

Excerpts: [New York: Kings Co: Brooklyn: Bernard Bey v Bernard and Vickie Manley:](#)

Summary: Necessity for Parental Licensing:

A credible Judicial System would find that the Applicant was born unloved and unwanted, as a consequence of AnthroCorpoCentric Legislator’s failure to legislate Breeding / Parenting licences, to protect the rights of unborn and unwanted children, from unloving and incompetent parenting; while hypocritically demanding Occupational Licences for hundreds of occupations, sometimes even from children for lemonade stands, to protect those occupations consumers from alleged incompetent service and products; as a result of their corrupt endorsement of the Corporatocracy’s Human Factory Farming Matrix: Poverty stricken voters for the Slavery Vote Farm ghetto’s; and Surplus labour for the Cannon Fodder War Economy Racket.

*AnthroCorpocentric Non-Credibility*

A ‘credible’ judicial system – like the gender balanced Mosuo in South West China who have no rape (not even a word in their language for rape, because it does not exist), no murder, no suicide and no unemployment; – is one which accurately applies the relevant natural or scientific laws, to attain a specific related required result of inter-human and intra-species harmony and balance; i.e.

(A) the laws of nature/ecology, recognizing that a healthy ecological environment, with due regard for regulating human procreation and resource utilization behaviour in accordance with the carrying capacity laws of sustainability is a sine qua non for all other constitutional rights; and (B) the laws of human nature; recognizing that culture's and sub-cultures whose members practice brutal honesty, self sufficiency, personal procreation and consumption responsibility, transparency and commitment to root cause problem solving have far greater harmony amongst their members, than tribes or cultures whose members practice political correctness, sycophancy, hypocrisy, parasitism, denial of responsibility, secrecy masquerading as 'privacy', and a focus on Public Relations Image Management Pretend problem solving.

### *Necessity of Parental Licensing*

A credible Judicial System would find that the Applicant was born unloved and unwanted, as a consequence of AnthroCorpoCentric Legislator's failure to legislate Breeding / Parenting licences, to protect the rights of unborn and unwanted children, from unloving and incompetent parenting; while hypocritically demanding Occupational Licences for hundreds of occupations, sometimes even from children for lemonade stands, to protect those occupations consumers from alleged incompetent service and products; as a result of their corrupt endorsement of the Corporatocracy's Human Factory Farming Matrix: Poverty stricken voters for the Slavery Vote Farm ghetto's; and Surplus labour for the Cannon Fodder War Economy Racket.

### *Multi-GlobalCorp-Cultural Colonialism & Black Family*

A credible Judicial System would find that the Applicant was born unloved and unwanted, as a consequence of the destruction of strong family and culturally homogenous tribal values by Corporate Multicultural Colonialism: the ideal Egotist Consumptionism cultural Ideology for Multinational Capitalism; where all states and all cultures are colonized as consumptionist slaves to Multinational Corporations.

### *Idiot Compassion Lifestyle Politics & Black Family*

A credible Judicial System would find that the Applicant was born unloved and unwanted, as a consequence of the destruction of strong family and culturally homogenous tribal values by Politically Correct Idiot Compassion – 'Anti-Personal Responsibility', etc -- Lifestyle Politics Activists.

### *CommonSism Guerrilla Law Relief Recommended*

A credible Judicial System would find that the conduct representations of the Republican/Democratic Parties, McDonalds / KFC and NAACP / Southern Poverty Law Center (SPLC) and Jesse Jackson / Al Sharpton, don't give a flying fuck about taking responsibility for how their actions result in the birth of unwanted and unloved children, in fact the more unloved and unwanted children the better for their victimhood welfare-vote-farm, poverty pimping and cannon fodder schemes. If the Applicant is willing to take responsibility for finding love and healing his pain and hurt, by signing up to go to Delancey Street Foundation to find a Delancey Street family; the Republican / Democratic Parties, McDonalds / KFC and NAACP / Southern Poverty Law Center(SPLC) and Jesse Jackson / Al Sharpton, should be ordered to each submit an amount of \$25,000 to a trust fund, to be available for the Applicant, should he choose to accept it, once he graduates – healed and loved – from the Delancey Street Foundation Tough Love Family/Tribe.

*"Swarrow" or "Suwarow" / Sparrow: Mbeki Penny Sparrow:*

“Rather this was prompted by the recent extremely reprehensible comments by one Penny Sparrow about Africans being “monkeys”, whom she said, referring to the Durban beaches, brought “huge dirt and troubles and discomfort to others...From now I shall address the blacks of South Africa as monkeys...”

[..] During the 2000 State of the Nation Address I quoted a comment which had been made by an engineer who was working in one of our companies, and had been unearthed by FAWU, the Food and Allied Workers Union.

The engineer wrote: "I would like to summarise what the Kaffirs have done to stuff up this country since they came into power...If a white buys a house, he pays transfer duties. If a kaffir buys a house it is free of duties because he was 'previously disadvantaged'...More than 20% of the GDP is embezzled by the kaffir politicians and corrupt civil servants...The UIF and state pension funds have been embezzled...Our girlfriends/wives are in constant threat of being brutally raped by some AIDS infested Kaffir (or gang of Kaffirs)...Everyday someone you know is either robbed, assaulted, hijacked or murdered...Half these black bastards have bought their (drivers) licences from corrupt traffic cops...AND AND AND AND AND...All I am saying is that AIDS isn't working fast enough!!!"
